Idioms Organiser Jon Wright, Jimmie Hill, 2005 Idioms Organiser Jon Wright, 2002 **Cognitive Linguistics, Second Language Acquisition, and Foreign Language Teaching** Michel Achard, Susanne Niemeier, 2008-08-22 This collection of twelve papers demonstrates that the concepts developed within the Cognitive Linguistics movement afford an insightful perspective on several important areas of second language acquisition and pedagogy In the first part of the book three papers show how three Cognitive Linguistics constructs provide a useful theoretical frame within which second language acquisition data can be analyzed First Talmy's typology of motion events is argued to constitute the base relative to which acquisition discrepancies in motion events are most valuably investigated Secondly the notion of construction is invoked in order to account for systematic differences between the native and non native speakers use of the English verb get Finally frequency and similarity effects are shown to play a crucial part in the learning of prepositions in a second language The second part of the book shows that the key concepts commonly invoked in Cognitive Linguistics analyses allow language teachers to insightfully structure the presentation of problematic material in the foreign language classroom These concepts include among others polysemy the figure ground gestalt the usage based conception of grammar the radial organization of categories metaphors and cultural scripts The Cognitive Linguistics paradigm has already shown its viability to analyze a wide array of linguistic phenomena This book establishes its relevance in the areas of second language acquisition and language pedagogy Its intended public is composed of Cognitive Linguists Second Language Acquisition specialists as well as foreign language pedagogy researchers instructors and students *L2 Figurative Language Teaching* Ioannis Galantomos, 2021-09-17 During L2 vocabulary instruction figurative language frustrates even highly proficient users who find it difficult to cope with non literal expressions such as metaphors metonymies and idioms Given that figurative language is closely associated with enhanced L2 communicative competence this volume brings together theory and teaching applications shedding light on the comprehension and production of figurative language in a foreign language context
