**Ido in Autismland. Climbing Out of Autism's Silent Prison** Ido Kedar, 2016 What is autism Is it a long list of behaviors or is it more Experts looked at my outside deficits eye contact impairment hand flapping and social delay and concluded that my inside was equally impaired They assumed I did not understand language recognize my parents or have a thought more advanced than a toddler s They supposed my brain could be molded in increments by drilling me on names and basic nouns or by telling me to jump or sit or touch my nose over and over This was the educational model I grew up with Now I am telling you what I couldn t tell my experts when I was stuck in my silent prison for so many years you were wrong Worse you were treating the wrong symptoms In my essays I explain autism from the inside out It is my dream that my book will help my friends and so many other non verbal autistic people to be liberated as I was I want a cure and I want communication now for all those still trapped in silence Thank you for listening to a silent boy no more Ido Kedar at age 13

Chandra Lehenhagen, 2024-07-25 This handbook provides educators and school practitioners with a practical resource to successfully support speaking and non speaking autistic students in K 12 school settings Each chapter discusses an approach founded on current research on the self reported school priorities of autistic students which historically have been overlooked in research and education Incorporating the views and experiences of autistic students promotes the use of human rights centered pedagogies and ensures that evidence based practices are both ethical and effective in supporting the learning and well being success of autistic students The informative content challenges assumptions of normative ability and highlights opportunities where evidence based practices to support autistic students can be used alongside inclusive best practices to improve the educational experiences of all students This handbook s flexible and easy to use design can be used in its entirety or as a reference tool for school practitioners teachers and parents *Chasing the Intact Mind* Amy S. F. Lutz, 2023-09-20 In Chasing the Intact Mind Amy Lutz traces the history of the intact mind concept explaining how it influences current disability policy and practice in the United States Lutz describes how we got to this moment where the severely autistic are elided out of public discourse and the intensive

disability specific supports they need defunded or closed altogether Lutz argues that focusing on the intact mind and marginalizing those with severe disability reproduces historic patterns of discrimination that yoked human worth to intelligence and that it is only by making space for the impaired mind that we will be able to resolve these ongoing clashes as well as even larger questions of personhood dependency and care

**Unmothering Autism** Patty Douglas, 2025-01-15 As global rates of autism diagnosis rise dominant cultural representations continue to define autism as a tragic neurological disorder And mothers as primary caregivers and advocates are centrally implicated in the impulse to find both cause and cure How should we care about autism and autistic people Unmothering Autism emerged from Patty Douglas's desire to understand a contradiction she and her two sons one autistic experienced beauty living together while their public encounters with doctors school professionals and agencies were fraught and sometimes violent In this book Douglas offers a critical history of popular and biomedical assumptions about autism expressed through shifting social constructs that blame or valorize maternal care Throughout she also intersperses her own insights and shares conversations she has had with other autism mothers Unmothering Autism theorizes an ethics of disruption reorienting us to autism and autistic people as valuable and fundamentally human It centres the previously marginalized perspectives of mothers and autistic individuals to affirm their knowledge of living well together in and through difference

Clear and comprehensive guides to scoring language samples and tracking progress. AAC Augmentative and Alternative Communication options and supports for developing literacy. Consideration of regulation and movement supports. Handouts for use in practice with extra content available online. Gestalt Language Processing is an invaluable resource for any Speech and Language Therapist, parent or teacher who is looking to further their knowledge and transform the language support they offer to autistic and neurodivergent children.

**Communication Alternatives in Autism** Edlyn Vallejo Peña, 2019-09-20 Ten autistic self advocates share their experiences with alternative forms of communication such as rapid prompting method RPM and facilitated communication FC both highly controversial. Their narratives document the complexities that autistic individuals navigate in both educational and community settings when choosing to use approaches that utilize letter boards and keyboards. While the controversies remain RPM requires further scientific study and FC is subject to criticism about confirmation bias. These individuals share powerful stories in the context of aiming for disability rights. The book concludes with a chapter about best practices for educators particularly for schools and colleges that have students who use these communication methods.

*Play and Friendship in Inclusive Autism Education* Carmel Conn, 2016-02-12 Taking an innovative approach to autism and play this practical text focuses on the particular form play and friendship takes for children with autism and their peers. Autistic children have clear preferences for play with sensory perceptual experience remaining a strong feature as they develop. Play and Friendship in Inclusive Autism Education offers a framework for supporting children's development through play with step by step guidance on how to facilitate the playful engagement of children with autism. Up to date research findings and relevant theoretical ideas are presented in an accessible and practical way highlighting what theory means to ordinary practice in schools whilst focusing on practical knowledge in autism education. Split into five chapters this book covers some of the main issues surrounding inclusive education and play discourses and definitions of play the difference between play and playfulness autism play and the inclusion agenda in education the nature of sensory perceptual experience in children's play cultures effective ways of supporting children's friendships. With practical guidance on how to support children with autism through play this book will be essential reading for teachers learning support assistants SENCOs and play workers as well as professionals working in an advisory capacity.
