Hate Speech on Campus Milton Heumann, Thomas W. Church, David P. Redlawsk, 1997 A cogent objective and in depth exploration of the legal political and social complexities of the decision to ban hate speech *If He Hollers Let Him Go* Chester B. Himes, 1967 *The Ideologies of African American Literature* Robert E. Washington, 2001 This book challenges the long held assumption that African American literature aptly reflects black American social consciousness Offering a novel sociological approach Washington delineates the social and political forces that shaped the leading black literary works Washington shows that deep divisions between political thinkers and writers prevailed throughout the 20th century Visit our website for sample chapters *Facing the Abyss* George Hutchinson, 2018-01-23 Mythologized as the era of the good war and the Greatest Generation the 1940s are frequently understood as a more heroic uncomplicated time in American history Yet just below the surface a sense of dread alienation and the haunting specter of radical evil permeated American art and literature Writers returned home from World War II and gave form to their disorienting experiences of violence and cruelty They probed the darkness that the war opened up and confronted bigotry existential guilt ecological concerns and fear about the nature and survival of the human race In *Facing the Abyss* George Hutchinson offers readings of individual works and the larger intellectual and cultural scene to reveal the 1940s as a period of profound and influential accomplishment *Facing the Abyss* examines the relation of aesthetics to politics the idea of universalism and the connections among authors across racial ethnic and gender divisions Modernist and avant garde styles were absorbed into popular culture as writers and artists turned away from social realism to emphasize the process of artistic creation Hutchinson explores a range of important writers from Saul Bellow and Mary McCarthy to Richard Wright and James Baldwin African American and Jewish novelists critiqued racism and anti-Semitism women writers pushed back on the misogyny unleashed during the war and authors such as Gore Vidal and Tennessee Williams reflected a new openness in the depiction of homosexuality The decade also witnessed an awakening of American environmental and ecological consciousness Hutchinson argues that despite the individualized

experiences depicted in these works a common belief in art's ability to communicate the universal in particulars united the most important works of literature and art during the 1940s Hutchinson's capacious view of American literary and cultural history masterfully weaves together a wide range of creative and intellectual expression into a sweeping new narrative of this pivotal decade Liberty, Equality, and Plurality Larry May, Christine T. Sistare, Jonathan Schonsheck, 1997 Voters as well as ethicists and legal experts are currently debating many of the issues inherent in balancing individual with majority and minority group rights though often there seems to be an inverse correlation between the two May Washington U chairs lively multidisciplinary discussions on the incompatibility of liberty and equality with responsibility being the wild card law morality and limits on liberty in regard to freedom of speech poverty taxation and assisted suicide and equality and the clash of cultures in cases of hate speech and religious freedom vs refusal of medical treatment Annotation copyrighted by Book News Inc Portland OR

Sticking It to the Man Iain McIntyre, Andrew Nette, 2019-11-15 From civil rights and Black Power to the New Left and gay liberation the 1960s and 1970s saw a host of movements shake the status quo The impact of feminism anticolonial struggles wildcat industrial strikes and antiwar agitation were all felt globally With social strictures

and political structures challenged at every level pulp and popular fiction could hardly remain unaffected Feminist gay lesbian Black and other previously marginalised authors broke into crime thrillers erotica and other paperback genres previously dominated by conservative straight white males For their part pulp hacks struck back with bizarre takes on the revolutionary times creating fiction that echoed the Nixonian backlash and the coming conservatism of Thatcherism and Reaganism Sticking It to the Man tracks the ways in which the changing politics and culture of the 1950s 60s and 70s were reflected in pulp and popular fiction in the United States the UK and Australia Featuring more than three hundred full color covers the book includes in depth author interviews illustrated biographies articles and reviews from more than two dozen popular culture critics and scholars Among the works explored celebrated and analysed are books by street level hustlers turned best selling black writers Iceberg Slim Nathan Heard and Donald Goines crime heavyweights Chester Himes Ernest Tidyman and Brian Garfield Yuppies Anita Hoffman and Ed Sanders best selling authors such as Alice Walker Patricia Nell Warren and Rita Mae Brown and myriad lesser known novelists ripe for rediscovery Contributors include Gary Phillips Woody Haut Emory Holmes II Michael Bronski David Whish Wilson Susie Thomas Bill Osgerby Kinohi Nishikawa Jenny Pausacker Linda S Watts Scott Adlerberg Maitland McDonagh Devin McKinney Andrew Nette Danae Bosler Michael A Gonzales Iain McIntyre Nicolas Tredell Brian Coffey Molly Grattan Brian Greene Eric Beaumont Bill Mohr J Kingston Pierce Steve Aldous David James Foster and Alley Hector

Black Fiction Roger Rosenblatt, 1974 In this illuminating book Roger Rosenblatt offers both sensitive analyses of individual works and a provocative and compelling thesis He argues that black fiction has a unity deriving not from any chronological sequence or simply from its black authorship but from a particular cyclical conception of history on which practically every significant black American novel and short story is based Marked for oppression by an external physical characteristic black characters struggle constantly against and within a hostile world Rosenblatt's analysis of the way black protagonists try to break historical patterns provides an integrated and sustained interpretation of motives and methods in black fiction The black hero after starting on a circular track may try to change direction by means of his youth love education or humor or he may try to escape into his own elusive and vague history But as Rosenblatt demonstrates these attempts all fail And the black hero discovers in the failure of his attempts that the society which caused all this failure is not only unattainable but undesirable Neither a sociological study nor a routine survey this is distinctly a work of literary criticism which concentrates on black fiction as literature

The Black Cultural Front Brian Dolinar, 2012-04-27 This book examines the formation of a black cultural front by looking at the works of poet Langston Hughes novelist Chester Himes and cartoonist Ollie Harrington While none of these writers were card carrying members of the Communist Party they all participated in the Left during their careers Interestingly they all turned to creating popular culture in order to reach the black masses who were captivated by movies radio newspapers and detective novels There are chapters on Hughes's Simple stories Himes's detective fiction and Harrington's Bootsie cartoons Collectively the experience

of these three figures contributes to the story of a long movement for African American freedom that flourished during the 1930s 1940s and 1950s Yet this book also stresses the impact that McCarthyism had on dismantling the Black Left and how it affected each individual involved Each was radicalized at a different moment and for different reasons *The Postwar African American Novel* Stephanie Brown,2011-03-14 Americans in the World War II era bought the novels of African American writers in unprecedented numbers But the names on the books lining shelves and filling barracks trunks were not the now familiar Richard Wright and Ralph Ellison but Frank Yerby Chester Himes William Gardner Smith and J Saunders Redding In this book Stephanie Brown recovers the work of these innovative novelists overturning conventional wisdom about the writers of the period and the trajectory of African American literary history She also questions the assumptions about the relations between race and genre that have obscured the importance of these once influential creators Wright s *Native Son* 1940 is typically considered to have inaugurated an era of social realism in African American literature And Ellison s *Invisible Man* 1952 has been cast as both a high mark of American modernism and the only worthy stopover on the way to the Black Arts Movement of the 1960s But readers in the late 1940s purchased enough copies of Yerby s historical romances to make him the best selling African American author of all time Critics meanwhile were taking note of the generic experiments of Redding Himes and Smith while the authors themselves questioned the obligation of black authors to write protest instead penning campus novels war novels and in Yerby s case costume dramas Their status as lesser lights is the product of retrospective bias Brown demonstrates and their novels established the period immediately following World War II as a pivotal moment in the history of the African American novel *Coward Plays: 2* Noël Coward,2014-05-01 The plays in this volume demonstrate the extraordinary skill and versatility Coward s writing achieved in the late 1920s The volume contains his best loved classic *Private Lives* which was an immediate hit when it was first staged in 1930 Coward s sparkling dialogue and repartee have ensured the play s popularity ever since *Of Bitter Sweet* in 1929 No l Coward wrote that it was a musical that gave me more complete satisfaction than anything else I had yet written Not especially on account of its dialogue or its lyrics or its music or its production but as a whole *The Marquise* is an eighteenth century comedy filled with maids and duels whilst *Post Mortem* is a vilification of war that contains some of Coward s most powerful writing **Being Yourself** Diana T. Meyers,2004 Meyers philosophy U of Connecticut Storrs presents a collection of essays exploring how to live a life that expresses one s own unique personality and distinctive values nine of the 13 essays were previously published between 1987 and 2003 Coverage includes autonomous action and its bearing on gender women s subordination and women s resis If He Hollers, Let Him Go Beth Harden,2015-10-28 *New Religious Movements in the Twenty-First Century* Phillip Charles Lucas,Thomas Robbins,2004-06-01 *New Religious Movements in the 21st Century* is the first volume to examine the urgent and important issues facing new religions in their political legal and religious contexts in global perspective With essays from prominent NRM scholars and usefully organized into four regional areas covering Western Europe Asia Africa

and Australia Russia and Eastern Europe and North and South America as well as a concluding section on the major themes of globalization and terrorist violence this book provides invaluable insight into the challenges facing religion in the twenty first century An introduction by Tom Robbins provides an overview of the major issues and themes discussed in the book

I Am a Man! Steve Estes, 2006-03-08 The civil rights movement was first and foremost a struggle for racial equality but questions of gender lay deeply embedded within this struggle Steve Estes explores key groups leaders and events in the movement to understand how activists used race and manhood to articulate their visions of what American society should be Estes demonstrates that at crucial turning points in the movement both segregationists and civil rights activists harnessed masculinist rhetoric tapping into implicit assumptions about race gender and sexuality Estes begins with an analysis of the role of black men in World War II and then examines the segregationists who demonized black male sexuality and galvanized white men behind the ideal of southern honor He then explores the militant new models of manhood espoused by civil rights activists such as Malcolm X and Martin Luther King Jr and groups such as the Nation of Islam the Student Nonviolent Coordinating Committee and the Black Panther Party Reliance on masculinist organizing strategies had both positive and negative consequences Estes concludes Tracing these strategies from the integration of the U S military in the 1940s through the Million Man March in the 1990s he shows that masculinism rallied men to action but left unchallenged many of the patriarchal assumptions that underlay American society
