Bell,Robert M. Ficociello,2017-10-19 Are we inside the era of disasters or are we merely inundated by mediated accounts of events categorized as catastrophic America s Disaster Culture offers answers to this question and a critical theory surrounding the culture of natural disasters in American consumerism literature media film and popular culture In a hyper mediated global culture disaster events reach us with great speed and minute detail and Americans begin forming interpreting and historicizing catastrophes simultaneously with fellow citizens and people worldwide America s Disaster Culture is not policy management or relief oriented It offers an analytical framework for the cultural production and representation of disasters catastrophes and apocalypses in American culture It focuses on filling a need for critical analysis centered upon the omnipresence of real and imagined disasters epidemics and apocalypses in American culture However it also observes events such as the Dust Bowl Hurricane Katrina and 9 11 that are re framed and re historicized as natural disasters by contemporary media and pop culture Therefore America s Disaster Culture theorizes the very parameters of classifying any event as a natural disaster addresses the biases involved in a catastrophic event s public narrative and analyzes American culture s consumption of a disastrous event Looking toward the future what are the hypothetical and actual threats to disaster culture Or are we oblivious that we are currently living in a post apocalyptic landscape **The Strange Case of Baby H** Kathryn Reiss,2014-07-08 A twelve year old girl searches for answers when she finds an abandoned baby in the aftermath of the San Francisco earthquake of 1906 Clara Curfman is awakened from a recurring swimming dream by her big furry sheepdog Humphrey Suddenly her bed is moving and the room is shaking from side to side and up and down The floor starts pitching like a giant ocean wave and her books dance right off the shelves As her parents and their neighbors cope with the earthquake s devastating aftereffects Clara makes a stunning discovery A baby has been left on the doorstep of her family s boarding house Is the abandoned infant a victim of the earthquake or something more sinister The only clue to her identity is a silver rattle engraved with the letter H On a quest to find Baby H s parents Clara meets a boy named Edgar who has been orphaned by the earthquake Their search takes them on a winding trail of danger that will test the true limits of Clara s courage This ebook includes a historical afterword

Thinking and Learning through Children's Literature Miriam G. Martinez, Junko Yokota, Charles Temple, 2017-04-18 Much of teachers attention these days is focused on having students read closely to ferret out the author s intended meaning and the devices used to convey that meaning But we cannot forget to guide students to have moving engagements with literature because they need to make strong personal connections to books of merit if they are to become the next generation of readers literate people with awareness of and concern for the diversity of human beings around them and in different times and places Fortunately guiding both students personal engagement with literature and their close reading to appreciate the author s message and craft are not incompatible goals This book enthusiastically and intelligently addresses both imperatives first surveying what is gained when students are immersed in literature then celebrating and explicating the main features of literature students need to understand to broaden their tastes and deepen their engagement

at the same time they meet external standards then presenting a host of active methods for exploring all major genres of children's books and finally presenting suggestions for interdisciplinary teaching units grounded in literature Created by noted leaders in the fields of children's literature and literacy the book is enlivened by recurring features such as suggested reading lists issues for discussion links to technology and annotations of exemplary books
