Aimed specifically at an international audience this edition boasts hundreds of references to new and relevant non US
research papers from top finance journals Whilst retaining the well respected structure of the successful US text Professor
David Hillier has also made a number of additions which include Fully updated research data and examples in every chapter
Coverage of the global financial crisis the impact it made on the financial markets and the lessons being learnt by the finance
industry A stronger emphasis on corporate governance and agency theory Updates on accounting standards bankruptcy laws
tax rules and tax systems **Valuation Challenges and Solutions in Contemporary Businesses** Köseoğlu, Sinem
Derindere,2019-11-29 Defining the value of an entire company can be challenging especially for large highly competitive
business markets While the main goal for many companies is to increase their market value understanding the advanced
techniques and determining the best course of action to maximize profits can puzzle both academic and business
professionals alike *Valuation Challenges and Solutions in Contemporary Businesses* provides emerging research exploring
theoretical and practical aspects of income based market based and asset based valuation approaches and applications
within the financial sciences Featuring coverage on a broad range of topics such as growth rate diverse business and market
value this book is ideally designed for financial officers business professionals company managers CEOs corporate
professionals academicians researchers and students seeking current research on the challenging aspects of firm valuation
and an assortment of possible solution driven concepts **Accounting for Sustainability: Asia Pacific Perspectives**
Ki-Hoon Lee,Stefan Schaltegger,2018-01-30 This book advances the understanding of corporate sustainability and challenges
and roles of sustainability accounting in the Asia Pacific region The Asia Pacific region has shown fast economic growth for
several decades which is expected to continue In this context Asia has become the production engine of the global economy
At the same time scientific reports reveal that some planetary boundaries are crossed for example relating to biodiversity and
climate change Companies in the Asia Pacific region are therefore increasingly challenged to reduce their environmental

impacts to document their social contribution and to contribute to sustainable development Key approaches to identify sustainability problems and challenges to support improvement processes and to back up sustainability contributions include accounting and reporting In contrast to the high relevance of accounting and reporting for corporate sustainability for the Asia Pacific region academic research has so far been dominated by Western researchers and pre dominantly dealt with Western and Japanese cases and approaches It is thus time to take account of Asian perspectives on accounting and reporting for sustainability in the Asia Pacific region
