**Brief Interventions with Bereaved Children** Barbara Monroe, Frances Kraus, 2010 Recent years have seen increasing interest in the needs of children facing bereavement and a corresponding increase in services to support them This book addresses and explains the theoretical concepts and practical implications behind the idea of brief work with bereaved children and families Flexible and accessible short term services delivered at the right time underpin the strengths of bereaved children supporting their recovery rather than pathologising the grief process In this way the book also speaks to the current interest in the concept of resilience and working with families strengths and possibilities rather than merely identifying their problems This second edition continues to be a unique book within the growing field of childhood bereavement and the new chapters added to this edition discuss managing situations with learning disability supporting very young children and emotional literacy The book

also presents cases from the service user's perspective. It looks at different approaches to intervention such as the importance of assessment and the value of groupwork and also covers work with children and families before a death. Brief interventions with bereaved children will appeal to practitioners, educators and service providers managing scarce resources. The editors have more than twenty-five years' experience as practitioners within the field as service providers and educators. The book features chapters from distinguished contributors with backgrounds in healthcare, education, social work and the police alongside theoretical and practice-based chapters from workers in the field of bereavement care for children.

**Treating Trauma and Traumatic Grief in Children and Adolescents, Second Edition** Judith A. Cohen, Anthony P. Mannarino, Esther Deblinger, 2017-02-16 This authoritative guide has introduced many tens of thousands of clinicians to Trauma Focused Cognitive Behavioral Therapy (TF-CBT), a leading evidence-based treatment for traumatized children and their parents or caregivers. Preeminent clinical researchers provide a comprehensive framework for assessing posttraumatic stress disorder (PTSD), other trauma-related symptoms and traumatic grief in 3 to 18-year-olds, building core coping skills and directly addressing and making meaning of children's trauma experiences. Implementation is facilitated by sample scripts, case examples, troubleshooting tips and reproducible client handouts. Purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2 x 11 size. TF-CBT is listed in SAMHSA's National Registry of Evidence-Based Programs and Practices. New to This Edition: Incorporates a decade's worth of advances in TF-CBT research and clinical practice. Updated for DSM-5. Chapter on the model's growing evidence base. Chapter on group applications. Expanded coverage of complex trauma, including ways to adapt TF-CBT for children with severe behavioral or affective dysregulation. See also the edited volume *Trauma Focused CBT for Children and Adolescents: Treatment Applications* for more information on tailoring TF-CBT to children's varying developmental levels and cultural backgrounds.
