Now more than ever, health care professionals play an increased role in the promotion of health to populations. Unique and innovative *Interprofessional Perspectives for Community Practice: Promoting Health, Well-being and Quality of Life* weaves everyday care into prevention, community and population health, creating a new and more expansive vision of health for all without compromising traditional practices. Authors and editors Drs. Pizzi and Amir discuss and illustrate a client-centered preventive and health, well-being and quality of life approach rooted in best practice principles from interprofessional literature and firsthand experience. The text illustrates how allied health professionals implement those principles in their everyday and traditional practices with an emphasis on exploring health and well-being issues. *Interprofessional Perspectives for Community Practice* provides detailed guidance in program development and implementation. What's included in *Interprofessional Perspectives for Community Clinical* anecdotes on successful community practices. A focus on primary and secondary prevention. Assessments, interventions and community practice examples. Descriptions of community-based practice settings such as adult day care, independent living programs, hospice and home health care. Health and wellness across the lifespan. Bonus chapters available online as PDFs for readers. The first text of its kind to weave interprofessionalism, community practice and health, well-being and quality of life. *Interprofessional Perspectives for Community Practice: Promoting Health, Well-being and Quality of Life* is for all health care workers and students who wish to transfer practice skills from the clinical setting to a population-based program development model.

Physical Therapy for Children - E-Book Robert J. Palisano, Suzann K. Campbell, Margo Orlin, 2014-04-25. Used as both a core textbook in PT programs and as a clinical reference. *Physical Therapy for Children* 4th Edition provides the essential information needed by PTs both student and professional when working with children. Like the previous bestselling editions, the 4th edition follows the practice pattern categories of the *Guide to Physical Therapist Practice* and uses the IFC model of the disabling process as it presents up-to-date evidence-based coverage of treatment. In this latest edition, Suzann Campbell, DeLapp, Robert J. Palisano and Margo N. Orlin have added more case studies and video clips, additional chapters and Medline-linked references online and Evidence to Practice boxes to make it easy to find and remember important information. Provides comprehensive foundational knowledge in decision-making, screening, development, motor control and motor learning, the impairments of body function and structure and the PT management of pediatric disorders. Reflects a family-centered care model throughout to help you understand how to involve children and their caregivers in developing and implementing intervention plans. Emphasizes an evidence-based approach that incorporates the latest research for the best outcomes. Follows the practice pattern guidelines of the *Guide to Physical Therapist Practice* 2nd Edition which sets the

standard for physical therapy practice Features the International Classification of Function Disability and Health ICF of the World Health Organization WHO as the model for the disabling process emphasizing activity rather than functional limitations and participation rather than disability in keeping with the book's focus on prevention of disability Provides extensive case studies that show the practical application of material covered in the text and are often accompanied by online video clips illustrating the condition and its management Makes it easy to access key information with plenty of tables and boxes that organize and summarize important points Clearly demonstrates important concepts and clinical conditions you'll encounter in practice with over 800 illustrations Takes learning to a deeper level with additional resources on the Evolve website featuring Over 40 video clips that correspond to case studies and demonstrate conditions found in each chapter Helpful resources including web links Questions and exercises you'll find helpful when preparing for the pediatric specialist certification exam
