decided to leave with a two year disability and have the California Department of Rehabilitation upgrade my clerical skills so I could get a desk job The promoters of compassion in this country have succeeded in creating so many categories of disability that it was nearly impossible for this middle aged white guy to get an entry level desk job with the State of California The worsening of my disability and my efforts to overcome it with alternative therapies will be covered in my chapter on health Its just as well that I wanted to work in spite of my disability My two year disability policy required me to apply for a Social Security disability SSI so I went to be examined by their doctor When I walked into the crowded waiting room I was ushered right in to see the doctor He explained that the people in the waiting room had to wait for an interpreter so for that reason alone they would qualify for SSI Since I was able to walk in I would not qualify I believe in climate change but it was around long before humankind was here to influence the weather Over a century ago at least one scientist determined through an experiment that the concentration of CO2 was already past the point where adding more would increase global warming The global w Grumman F6F Hellcat ,1998 **The American Aircraft Factory in World War II** Bill Yenne,2010-09-10 Few industrial phenomena have been as dramatic as the United States mid 20th century shift from peacetime to wartime production The American Aircraft Factory in World War II documents the production of legendary warbirds by companies like Boeing North American Curtiss Consolidated Douglas Grumman and Lockheed It was a production unmatched by any other country and a crucial part of why the allies won the war Author Bill Yenne considers the prewar governmental acts that got the plants rolling as well as the gender shift that occurred as women entered the work force like never before He also describes the construction of megafactories like Willow Run factory design considerations and the postwar conversion back to peacetime production Illustrated with 175 period photographs including 50 rare color photos never before seen in print **A Handbook of Fighter Aircraft** Francis Crosby,2003 Hardcover 256pp Anness Publishing Ltd January 2003 *Hidden Warbirds II* Nicholas A.
