Prelude to War Barton Barre He is by far the most refreshing character here unruly gutsy and disgusted with his family Kirkus Reviews Legends of War The book has drawn me forward with anticipation and reward A good read Thank you so much ReaderJRF London England The Road Home Charming Real Cultured Elise is beautiful and Barton is a rogue and driven obsessively to succeed He quickly puts his war time heroics to the side to attain all he desires Reader S **The Novel, Volume 2** Franco Moretti,2022-04-12 Nearly as global in its ambition and sweep as its subject Franco Moretti s The Novel is a watershed event in the understanding of the first truly planetary literary form A translated selection from the epic five volume Italian Il Romanzo 2001 2003 The Novel s two volumes are a unified multiauthored reference work containing more than one hundred specially commissioned essays by leading contemporary critics from around the world Providing the first international comparative reassessment of the novel these essential volumes reveal the form in unprecedented depth and breadth as a great cultural social and human phenomenon that stretches from the ancient Greeks to today where modernity itself is unimaginable without the genre By viewing the novel as much more than an aesthetic form this landmark collection demonstrates how the genre has transformed human emotions and behavior and the very perception of reality Historical statistical and formal analyses show the novel as a complex literary system in which new forms proliferate in every period and place Volume 2 Forms and Themes views the novel primarily from the inside examining its many formal arrangements and recurrent thematic manifestations and looking at the plurality of the genre and its lineages These books will be essential reading for all students and scholars of literature *The Earth Writes* Koichi Haga,2019-01-16 This book extensively analyzes the literary works of fiction that draw on the Great East Japan Earthquake and Tsunami that occurred on March 11 2011 This disaster inspired literally hundreds of fictional works in Japan from the time of the events through 2017 This response represents a unique and perhaps unprecedented cultural phenomenon in the world Since a variety of writers in different genres and even amateurs have written and published books inspired by their experiences of the disaster it is extremely difficult to cover the entire body of Japanese post 3 11 literature Because of the breadth of this literary response there is a scarcity of research on the subject available This book offers the first comprehensive review of Japan s recent post disaster literary production to the English audience **Tipping Point for a Hollow Earth: How Asimov and Sagan Backed My Prophecy of a Polar Hole Shift to Europe** Ruth Leedy Carr,2025-05-14 An approaching Earth axis shift is the most pressing issue of our time and yet scientists have said almost nothing about it and the public is woefully ignorant You will see here why scientists have had so little to say about this coming disaster and also about the growing instability of hollow Mars The pictures of a lighted polar hole on the night side of Mars lighted by an internal sun will shock you The refusal of NASA to say one word about that night side light in response to a congressman s request is truly mystifying The willingness of all news media to sweep this issue under the rug must be seen as a betrayal of the first order Are we all lambs meekly heading for slaughter Isaac Asimov and Carl Sagan have provided a path that can lead us beyond the dismal future

Envisioning Asia Jeanette Roan, 2010-05-07 Whereas some other scholars read selected films mainly to illustrate political arguments Roan never loses sight of the particularities of film as a distinctive cultural form and practice Her drive to see cinema as a mechanism of American orientalism results in not just a textual analysis of these films but also a history of their material production and distribution Josephine Lee University of Minnesota *Envisioning Asia* offers an exciting new contribution to our understandings of the historical developments of American Orientalism Jeannette Roan deftly situates changing cinematic technologies within the context of U S imperial agendas in this richly nuanced analysis of shooting on location in Asia in early 20th century American cinema Wendy Kozol Oberlin College Through her
