Handbook For The Assessment Of Driving Capacity:

Handbook for the Assessment of Driving Capacity Maria T. Schultheis, John DeLuca, Douglas Chute, 2011-05-05 This is a resource for professionals involved in determining the driving capacity of individuals with neurological involvement and or trauma While much work has been completed in this new and growing field this is the first attempt to bring together clinical work on assessing driving capacity for different clinical populations and conditions Specific topics include traumatic brain injury stroke dementia normal aging medications retraining interventions medical conditions legal issues practical issues assessment instruments simulators research and epidemiology Each chapter will address clinically relevant issues specific to the clinical population This comprehensive compilation of driving assessment of cognitively compromised populations is the first of its kind and Dr Schultheis is regarded as a leader in the field The first definitive handbook about driving assessment of cognitively impaired populations a growing area of research Addresses a myriad of clinical populations and conditions such as brain injured and elderly patients Written by nationally recognized leaders in their fields of expertise *Handbook for the Assessment of Driving Capacity* Maria T. Schultheis, John DeLuca, Douglas Chute, 2009 Handbook for the Assessment of Driving Capacity was created as a practical resource for individuals involved in determining the driving capacity of cognitively compromised populations The book discusses the cognitive demands of driving ability and how various disorders and or traumas may impact abilities necessary to driving and how best to assess whether those abilities have been affected and to what extent Contributors to this work include physicians neuropsychologists and occupational therapists in order to give a full view of perspectives in determining driving capacity The book will serve the needs of neurologists neuropsychologists and rehabilitation specialists commonly working with persons whose driving ability needs assessment

Book Jacket Civil Capacities in Clinical Neuropsychology George J. Demakis, 2012-10-15 Clinical neuropsychologists are increasingly involved in the evaluation of civil capacities and are in demand by other professionals particularly attorneys and judges to assist their decision making about these sometimes complex issues While there has been some neuropsychological research in this area this has not been assembled into a single volume nor have practice recommendations been provided This volume fills these gaps The first part of this volume reviews and synthesizes the research literature on neuropsychological aspects of civil capacities The specific capacities addressed include driving financial and healthcare decision making testamentary i e will making capacity and personal care and independence Each chapter addresses relevant background issues conceptual theoretical advances and empirical findings The chapters also include an illustrative case study that demonstrates how the authors each expert in the various areas evaluated and conceptualized the case Each chapter is written from an evidence based perspective and where appropriate uses research to inform practice recommendations The second part of this volume provides recommendations to practitioners on how to conduct civil capacity evaluations that utilize neuropsychological assessment There are chapters on an evaluative framework for the assessment

capacity test selection and psychometric issues working with other data sources besides testing e.g. collateral interviews best practices in report writing and testifying as well as common ethical issues in such cases Throughout these chapters provide practical how to advice to improve neuropsychological practice and consulting in civil capacity cases In addition to these chapters there is a chapter written by legal consumers of psychological reports This chapter offers a wealth of useful information and recommendations that if followed will further serve to advance psychological report writing and consultation in civil capacity evaluations
