**Narrative Approaches to Brain Injury** David Todd,Stephen Weatherhead,2018-03-21 This book brings together narrative approaches and brain injury rehabilitation in a manner that fosters an understanding of the natural fit between the two We live our lives by narratives and stories and brain injury can affect those narratives at many levels with far reaching effects Understanding held narratives is as important as understanding the functional profile of the injury This book explores ways to create a space for personal stories to emerge and change whilst balancing theory with practical application Despite the emphasis of this book on the compatibility of narrative approaches to supporting people following brain injury it also illustrates the potential for contributing to significant change in the current narratives of brain injury This book takes a philosophically different

approach to many current neuro rehabilitation topics and has the potential to make a big impact It also challenges the reader to question their own position but does so in an engaging manner which makes it difficult to put down      *Locating Health* Stephen Platt,Hilary Thomas,Sue Scott,Gareth Williams,2018-05-11 Originally presented as papers in the 1991 British Sociological Association Conference on Health and Society *Locating Health* represents a valuable addition to the health inequalities debate by extending our gaze beyond the traditional locations to include place consumption and lifestyle It offers reconceptualization of key theoretical terms including work income and public private domains as well as addressing the reciprocal influence of health and social location for example early retirement and highlighting the health consequences of multiple locations such as gender and class gender and age      *Women's Health and Social Change* Ellen Annandale,2008-07-14 Shortlisted for the BSA Sociology of Health and Illness Book Prize 2009 In this important text Ellen Annandale provides a comprehensive and persuasive analysis of the contemporary social relations of gender and women s health outlining what an adequate feminist analysis of women s health might look like      *Inequality and African-American Health* Shirley A. Hill,2016-10-05 This book shows how living in a highly racialized society affects health through multiple social contexts including neighborhoods personal and family relationships and the medical system Black white disparities in health illness and mortality have been widely documented but most research has focused on single factors that produce and perpetuate those disparities such as individual health behaviors and access to medical care This is the first book to offer a comprehensive perspective on health and sickness among African Americans starting with an examination of how race has been historically constructed in the US and in the medical system and the resilience of racial ideologies and practices Racial disparities in health reflect racial inequalities in living conditions incarceration rates family systems and opportunities These racial disparities often cut across social class boundaries and have gender specific consequences Bringing together data from existing quantitative and qualitative research with new archival and interview data this book advances research in the fields of families race ethnicity and medical sociology
