Carolin Görzig, Khaled Al-Hashimi

Identity And Violence The Illusion Of Destiny By Amartya Sen:

Identity and Violence Amartya Sen, 2007 Amartya Sen argues that most of the conflicts in the contemporary world arise from individuals' notions of who they are and which groups they belong to, local national religious which define themselves in opposition to others. **Amartya Sen** Christopher W. Morris, 2010 A volume of essays on aspects of Amartya Sen's hugely influential and multi-disciplinary work. **Identity & Violence** Amartya Sen, 2006 The World May Be More Riven By Murderous Violence Than Ever Before Yet Nobel Laureate Amartya Sen Argues In This Sweeping Philosophical Work That Its Brutalities Are Driven As Much By Confusion As By Inescapable Hatred Sen Argues In His New Book That Conflict And Violence Are Sustained Today No Less Than The Past By The Illusion Of A Unique Identity Indeed The World Is Increasingly Taken To Be Divided Between Religions Or Cultures Or Civilizations Ignoring The Relevance Of Other Ways In Which People See Themselves Through Class Gender Profession Language Literature Science Music Morals Or Politics And Denying The Real Possibilities Of Reasoned Choices In Identity And Violence He Overturns Such Stereotypes As The Monolithic Middle East Or The Western Mind Through His Penetrating Investigation Of Such Subjects As Multiculturalism Fundamentalism Terrorism And Globalization He Brings Out The Need For A Clear Headed Understanding Of Human Freedom And A Constructive Public Voice In Global Civil Society The World Sen Shows Can Be Made To Move Towards Peace As Firmly As It Has Recently Spiralled Towards War. **Cape Town 2007** Pramila Bennett, 2009 The 17th Triannual Congress of the International Association for Analytical Psychology took place in Cape Town South Africa in August 2007 The plenary presentations are printed in this volume A CD with all the congress presentations and a selection of images is also included Listed here are just a few of the many presentations Journeys Encounters Clinical Communal Cultural by Joe Cambray How Does One Speak of Social Psychology in a Nation in Transition by Mamphela Ramphele Trauma Forgiveness and the Witnessing Dance Making Public Spaces Intimate by Pumla Gobodo Madikizela Shifting Shadows Shaping Dynamics in the Cultural Unconscious by Catherine Kaplinsky Journey to the Center Images of Wilderness and the Origins of the Southern African Association of Jungian Analysts by Graham S Saayman Panel Prehistoric Rock Art The Biped Surprised by Christian Gaillard and Harnessing the Brain Vision and Shamanism in Upper Paleolithic Western Europe by J D Lewis Williams

Theory of World Security Ken Booth, 2007-12-20 What is real What can we know How might we act This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times Arguing that the concept of security in world politics has long been imprisoned by conservative thinking Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives Booth suggests that human society globally is facing a set of converging historical crises He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business as usual and for planning to reconstruct a more cosmopolitan

future Theory of World Security is a challenge both to well established ways of thinking about security and alternative approaches within critical security studies **Rabindranath Tagore, Amartya Sen, and the Early Indian Classical Period** Neal Leavitt, 2022-10-31 Rabindranath Tagore 1861 1941 and Amartya Sen 1933 defend a distinctive form of foreign policy internationalism in their writings Instead of increasing the economic and military power of democratic states relative to their authoritarian competitors Tagore and Sen focus on the need to diminish the capacity for violence in all states regardless of regime type In Sen s view a program of nuclear disarmament a coordinated reduction in global military spending and a coordinated reduction in the global arms trade should be woven into international law This book argues that the distance between Tagore and Sen s foreign policy recommendations and the policies pursued by the leading states in the international system is better understood when it is viewed in terms of the early Indian classical period In particular the idea that violent actions lead to violent responses and are therefore both immoral and imprudent is prominently expressed in the early Buddhist Discourses and the Ashokan inscriptions as well as the writings of Tagore and Sen The ethical standard of the obligations of power articulated by Tagore and Sen provides a better foundation for thinking about human security than the social contract tradition Collectivistic Religions Slavica Jakelc, 2016-05-23 Collectivistic Religions draws upon empirical studies of Christianity in Europe to address questions of religion and collective identity religion and nationalism religion and public life and religion and conflict It moves beyond the attempts to tackle such questions in terms of choice and religious nationalism by introducing the notion of collectivistic religions to contemporary debates surrounding public religions Using a comparison of several case studies this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization it will be of key interest to scholars across a range of disciplines including sociology political science religious studies and geography *Religious Identities and the Global South* Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications **International Politics** Scott P. Handler, Robert T. Person, 2020-12-23 Why do states do what they do Who are the relevant nonstate actors in international politics and why do they do what they do What causes conflict and

cooperation in the international system These are some of the most basic questions that the discipline of International Relations IR seeks to answer they are also the questions that drive the objectives organization and content of this book International Politics Classic and Contemporary Readings Second Edition seeks to help students engage critically with some of the world's most challenging questions through the use of leading classic and contemporary scholarship in the field of international relations The first five chapters of the book explore the leading theoretical traditions in international relations while subsequent chapters explore the themes of international security international political economy and contemporary challenges in international relations This organization makes the book easy to use as standalone text or alongside core text Class tested on over 10 000 students in the last decade this text was built from the ground up to introduce students to the traditions and new foundations of international relations as well to the principles of intellectually rigorous thought

Towards the Dignity of Difference? Mojtaba Mahdavi, 2016-02-24 The rise of popular social movements throughout the Middle East North Africa Europe and North America in 2011 challenged two hegemonic discourses of the post Cold War era Francis Fukuyama's The End of History and Samuel Huntington's The Clash of Civilizations The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East This is no less than a discursive paradigm shift a new beginning to the history a move towards new alternatives to the status quo This book is about difference and dialogue it embraces The Dignity of Difference and promotes dialogue However it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts particularly in cases involving asymmetric and unequal power relations The distinguished group of authors suggests in this volume that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way is a radical call for an epistemic shift in our understanding of us other and good evil a radical approach toward accommodating difference as well as embracing the plural concept of the good The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies This important book will be essential reading for all those studying civilizations globalization foreign policy peace and security studies multiculturalism and ethnicity regionalism global governance and international political economy Policing Wars Caroline Holmqvist, 2016-06-15 Holmqvist presents an original account of the relationship between war and policing in the twenty first century This interdisciplinary study of contemporary Western strategic thinking reveals how why and with what consequences the wars in Afghanistan and Iraq became seen as policing wars **Human Rights from Community** Oche Onazi, 2016-06-30 Poverty exclusion and lack of participation are symptomatic of state and market based approaches to human rights Oche Onazi uses Nigeria as a case study to show how the idea of community is a better alternative capable of inspiring the poor and the vul **The Philosophy of Ang Lee** Robert Arp, Adam Barkman, James McRae, 2013-05-01 Ang

Lee b 1954 has emerged as one of cinema s most versatile critically acclaimed and popular directors Known for his ability to transcend cultural and stylistic boundaries Lee has built a diverse oeuvre that includes films about culture clashes and globalization Eat Drink Man Woman 1994 and The Wedding Banquet 1993 a period drama Sense and Sensibility 1995 a martial arts epic Crouching Tiger Hidden Dragon 2000 a comic book action movie Hulk 2003 and an American western Brokeback Mountain 2005 The Philosophy of Ang Lee draws from both Eastern and Western philosophical traditions to examine the director s works The first section focuses on Taoist Confucian and Buddhist themes in his Chinese language films and the second examines Western philosophies in his English language films but the volume ultimately explores how Lee negotiates all of these traditions strategically selecting from each in order to creatively address key issues With interest in this filmmaker and his work increasing around the release of his 3 D magical adventure The Life of Pi 2012 The Philosophy of Ang Lee serves as a timely investigation of the groundbreaking auteur and the many complex philosophical themes that he explores through the medium of motion pictures

Shakespeare and the Poetics and Politics of Relevance Dymna Callaghan, Sophie Chiari, 2024-11-09 Four years on from George Floyd s murder this volume asks if and how Shakespeare might be relevant whether in performance in the classroom or in scholarship to the pressing issues of social and climate justice This question however is accompanied by the acute and uncomfortable recognition that there have been other consequences to the awakening of the world since Floyd s death including the call to cancel Shakespeare altogether This volume however is not an apology for Shakespeare but rather an engagement with him From the perspective of the scholars who contribute here questions about Shakespeare in our current context are not only deeply enmeshed with issues about his historical geographical and performance context and its attendant alterity but crucially also to the specifically literary forms and structures with which he worked Even as these essays resist the idea of a timeless universalist Shakespeare they insist upon the poetics the creative framework the specifically literary dimensions of the plays that cannot be reduced to any paraphrasable content These are precisely the features that facilitate and enable the relevance of Shakespeare s works even across the chasm of the centuries since he composed them

Political Governance and Minority Rights Lipi

Ghosh, 2020-11-29 This volume brings together a collection of essays analysing the current scenario in South and Southeast Asia with respect to the position of minority groups Based on an in depth investigation of some of the lasting minority majority conflicts of the post colonial period in countries that often escape comparison the articles are a rich and critical exposition of the social economic cultural and political dimensions of these struggles The central question being addressed is that of community rights in the modern nation state and how these are being understood by the two concerned parties and where and when thereof a situation of conflict arose

Women at the Threshold of Globalisation Narendar Pani, Nikky

Singh, 2014-04-04 The popular perception of globalisation is rooted in its image of dissolving senses of distance and boundaries It is so preoccupied with the technology that enables globalisation that little attention is paid to questions of how

and where the circuits of globalisation actually get realised This book attempts a more nuanced view of globalisation by focusing on its less explored non technological dimensions It examines the transformation of the woman worker from a rural woman to an urban one from a dependent daughter wife and mother to an earning member and from a homemaker to a factory worker and the attendant transformation of the home into a base for migrant workers None of these transformations is absolute as the woman worker continues to play the traditional roles of wife and mother at home alongside fulfilling her responsibilities at work In the process of negotiating boundaries in the village city home and global factory she confronts a reality that she fears because of its unfamiliarity coping with which necessarily entails falling back on her kin networks institutions that are rarely seen as enablers of globalisation although they play a critical role in determining how globalisation is sustained Focusing on such workers in Bangalore a city otherwise known for its IT industry the book examines the global garment circuit especially the institutions and processes outside the workplace that influence how the global circuit is completed It will appeal to those in economics sociology gender studies urban studies as well as to those interested in issues relating to globalisation

Terrorism and Nationalism in the United Kingdom Nick

Brooke,2018-04-17 This book makes a timely contribution to the analysis of nationalism and terrorism and also the absence of terrorism It proposes to analyse why Scottish Welsh and English nationalism has never had as significant a turn to political violence as the case of Irish nationalism has This will answer a question which is too rarely asked why do certain groups not turn to terrorism Nick Brooke makes an important contribution to debates on nationalism in the United Kingdom as well as to debates on the relationship between nationalism and terrorism Furthermore the text provides complete narrative accounts of nationalist terrorism in Scotland Wales and England and considers how recent political developments impact the likelihood of further nationalist terrorism

Radicalization in Western Europe

Carolyn Görzig,Khaled Al-Hashimi,2014-09-15 Employing a theoretical framework based on the concept of identity loss this book seeks to understand why increased integration has stimulated greater radicalization among the Muslim populations in Western Europe Through extensive field research in four European countries the UK the Netherlands Germany and France the authors investigate three key questions 1 Why are 2nd and 3rd generations of Muslims in Europe more radical than their parents 2 Why does Europe experience more home grown terrorism today than thirty or forty years ago 3 Why do some European countries feature more radical Muslim communities

than others The book reveals that these three puzzling questions can be solved when analyzing the loss of individuality if the face of integration and identification with European society While Individualist and structural approaches fail to explain radicalization of Muslims in Europe this study by framing radicalization through coupling the public discourse with identity loss provides a much needed insight into the process of radicalization Explaining radicalization and gaining an understanding of the drivers of radicalization is crucial to prevent and mitigate intercultural alienation to further develop immigration policies redress integration failures as well as to avoid dangerous oversimplifications This book contributes not only to understanding why greater integration is matched by increasing radicalization but its insights also contribute to developing ideas about how radicalization can be prevented or overcome and integration policies can be enhanced This book will be of much interest to students of terrorism and counter terrorism radical Islam war and conflict studies European politics IR and security studies

Muslim Identity Politics Khadijah Elshayyal, 2018-02-28 The surge in divisive and far right politics and growing Islamophobia in Britain pose new challenges for Muslim advocacy organisations British Muslim activism has taken centre stage in the public sphere as a result Yet for over fifty years Muslim advocacy groups have worked to preserve religious identity lobby the state and provide concerted responses to the political establishment This is the first book to chart critically the national and global factors influencing the political mobilisation of British Muslim activists as Muslims Khadijah Elshayyal traces the changes of thought direction and method within Muslim identity politics after 1960 noting key organisations and turning points such as the Rushdie Affair the 9 11 attacks the 7 7 bombings and the current conflict in Syria The book argues that the Rushdie Affair prompted new debate around the subject of freedom of expression which has continued to be a point of contention ever since Providing a history of the interaction between Muslim advocacy groups and the state and the impact of state policy on Muslim communities Muslims Identity Politics shows that that Muslim citizens continue to experience an equality gap and recommends where transformation and progress can be made Based on primary sources and in depth interviews this book is a vital resource for government officials policy makers and researchers interested in multiculturalism Islamophobia and security issues in Britain
