Handbook of Aggressive and Destructive Behavior in Psychiatric Patients Robert T. Ammerman, Michel Hersen, L.A. Sisson, 2012-12-06 Scarcely a day passes without the media detailing some form of human aggression whether it be on its grandest scale in the form of war random bombings and shootings in the streets torture in a prison camp murder by gangs wife abuse resulting in the murder of the husband or the physical abuse of children sometimes resulting in their death Frequently perpetrators of human aggression when arrested and tried in court resort to a psychiatric defense But are all such aggressors indeed appropriately psychiatric patients And if so what are their particular diagnoses and how do these relate to aggression Also of concern is aggression directed against self as evidenced in the rising incidence of suicide among young people or the self mutilation of patients suffering from certain personality disorders Both violence directed outward and aggression toward oneself pose considerable challenges to clinical management whether in the therapist's office or in the inpatient unit Although we have not been able to find successful deterrents to aggression a sizeable body of evidence does exist certainly of a descriptive nature Such data for psychiatric patients are scattered however and can be found in literatures as diverse as the biological ethological epidemiological legal philosophical psychological psychiatric and criminological Therefore given the increased frequency with which mental health professionals encounter cases of violence in their day to day work we believed it important that existing data be adduced in one comprehensive volume

Operation Iraqi Freedom: DoD Should Apply Lessons Learned Concerning the Need for Security over Conventional Munitions Storage Sites to Future Operations Planning United States. Government Accountability Office, 2007 *Terrorist Recognition Handbook* Malcolm W. Nance, 2008-04-14 Effective counterterrorism requires a non prejudicial understanding of terrorist motives and methods Security professionals need to identify who terrorists might be recognize pre incident indicators of terrorist activity and competently analyze intelligence information Unfortunately most terrorist education comes in short sketchy briefings Military Review ,2009 *Hard Broke* M. D. Matter, 2025-05-31 Based on first hand experience encompassing multiple combat deployments in Iraq Afghanistan and the Horn of Africa this book addresses the threat of asymmetric warfare and the future of combat The American way of war is enabled by the concept of massing all available firepower when done correctly it makes US forces hard to beat However improvised explosive devices have increasingly enabled a new kind of asymmetric warfare one that conventional forces continue to struggle to counter This book offers a counter IED playbook one based upon the author s experiences of over 90 months of combat operations working the problem sets of Fires Effects IEDs Close Target Reconnaissance Tracking Tagging Locating TTL and Information Operations This text offers insights into the ways through some of the most complicated problems that have tested the Department of Defense and the Army the problems of how a conventional force is organized manned equipped and trained to deal with the problem of IEDs and how the Army is doctrinally organized to deal with an emerging revolution of military affairs *Improvised Munitions Handbook (Improvised Explosive Devices Or IEDs)* Department of the Army, 2008-08-01 In Unconventional Warfare operations it may be impossible or unwise to use conventional military munitions as tools in the conduct of certain missions It may be necessary instead to fabricate the required munitions from locally available or unassuming materials The purpose of

this manual is to increase the potential of Special Forces and guerrilla troops by describing in detail the manufacture of munitions from seemingly innocuous locally available materials Manufactured precision devices almost always will be more effective more reliable and easier to use than improvised ones but shelf items will just not be available for certain operations for security or logistical reasons Therefore the operator will have to rely on materials he can buy in a drug or paint store find in a junk pile or scrounge from military stocks Also many of the ingredients and materials used in fabricating homemade items are so commonplace or innocuous they can be carried without arousing suspicion The completed item itself often is more easily concealed or camouflaged In addition the field expedient item can be tailored for the intended target thereby providing an advantage over the standard item in flexibility and versatility The manual contains simple explanations and illustrations to permit construction of the items by personnel not normally familiar with making and handling munitions These items were conceived in house or obtained from other publications or personnel engaged in munitions or special warfare work This manual includes methods for fabricating explosives detonators propellants shaped charges small arms mortars incendiaries delays switches and similar items from indigenous materials

Human Terrain System Christopher J. Sims, 2018-04-19 To avoid the footpaths which may have been mined with

improvised explosive devices IEDs Ryan Evans a U S federal civilian was walking across a wheat field in Babaji Helmand Province in the spring of 2011 Evans was attached to the Royal Highland Fusiliers 2 Scots C Company a heavy infantry patrol tasked with providing security in the vicinity Begun 2 years earlier the Helmand Food Zone Program was a form of development intervention which offered subsidies seed and fertilizers to farmers who replaced lucrative opium cultivation from poppies with growing and harvesting wheat and vegetable crops Babaji had been in the control of insurgents until a few months earlier and had not received any assistance from the program during the previous year consequently there were tensions between the community and British forces As Evans and the patrol emerged from the field an Afghan man sitting nearby clearly irate shouted in Pashto that the British soldiers had wanted the farmer to grow wheat instead of poppy and then the same British soldiers walked through their fields At the immediate level the encounter demonstrated the direct link between conflict food security and local trade but conflict has many interrelated and mutual dependencies such that the anecdote is instructive on myriad broader milieus Where for example is the tipping point that makes a civilian value creating an expression of discontent to a heavily armed patrol above his immediate physical security Do livelihoods and cultures affect military strategies Are there interdependencies between insurgencies societies and economies Does the language of war require a sociological grammar in order to be understood Armed conflict is a human enterprise such that by extension understanding of the human dimension in a given area of operations should be thought integral to planning successful operations
