At the Blue Hole Jack R. Reese,2021-10-14 Said plainly churches are in trouble All churches are but certainly Churches of Christ Whether or not they recognize the threats they are facing is a different matter The future is fraught with dangers Many won't make it On New Year's weekend 1831-32 two churches came together in Lexington Kentucky in what is often known today as the Restoration Movement Among the churches that emerged from this movement were Churches of Christ which grew in the nineteenth century and then flourished in the twentieth At their zenith around 1990 there were over 13 000 Church of Christ congregations in the United States with nearly 1.3 million members Especially in the southern states where Churches of Christ were concentrated it seemed inconceivable that they would ever face their own death Like many communities of faith these churches are now in rapid decline The numbers are devastating At the current trajectory

Churches of Christ in America with a membership of just over a million will be less than a quarter their current size in thirty years As they awaken to their crisis many of them are beginning to see themselves at the edge This book is an elegy for those churches But it is also a story of hope and promise As from the Blue Hole the tiny hidden spring from which flows the San Antonio River near where Jack Reese ministers there is still abundant life and grace to be found flowing into Churches of Christ waiting to be uncovered Anyone wondering how to stem the seemingly inevitable ebb of the fading Western church will find solace and help in Reese s account of a once thriving fellowship of churches that God willing may yet emerge from the grave into the light of resurrection Growing and Flourishing Stephen Spencer,2019-01-30 What is genuine church growth Is it at heart the numerical growth of regular congregations or are there other dimensions and if so what are they How can we learn from other contexts in order to properly inform our understanding of what we mean by church growth Mara is one of the most marginalised regions in Tanzania which in turn is a country in the most marginalised continent on the planet and yet Spencer argues the church in the region has exhibited remarkable growth Looking beyond the usual dimensions of church growth discourse Stephen Spencer weaves in his own experience in Tanzania finding in that wholly different context an approach to church growth which might entirely change the discourse in the global north
