Operation Guide

Getting Started

Before using this device, fully charge it. Charging instructions can be found on page 5.

Open the charging case and take out the earbuds. Both LED lights will flash red and blue and one of the earbuds flashes red and blue, while the other earbud flashes blue, indicating that the right and left earbuds have synced to each other.

Pairing

1. Go to Bluetooth® settings on your mobile device.
2. Turn Bluetooth® On on your device.
3. On your Bluetooth® device, select "iHome XT-12" from the list of available devices.
4. The earbud indicator LEDs will show flash blue to indicate they are connected.

Basic Functions

Right Earbud:

- Double tap the control surface to play or pause the audio.
- Tap and hold to skip to the next audio track.
- Single tap to raise the volume.

Left Earbud:

- Tap and hold to skip to the previous audio track.
- Single tap to lower the volume.

Phone calls:

When there is an incoming call, the unit will pause the playback and ring to alert you of the call. Phone call functions work the same on either of the earbuds. To answer an incoming call, single tap the control surface of either earbud. To end a call, double tap the control surface. To reject an incoming call tap and hold the control surface.

*Actual control may not work during phone calls with some manufacturers' devices.

Troubleshooting

Earbuds do not sync with each other

1. Place the earbuds in the case, then take out the earbuds, ensuring both earbuds are turned on.
2. On each earbud, press and hold the control surface for 5 seconds. The earbud will turn off after the LED flashes purple 5 times.
3. Replace the earbuds in the charging case.
4. Repeat the factory pairing process.

Earbuds do not pair to device

1. Turn the Earbuds OFF to pressing the control surface on each earbud until the LED blinks red, and then turn off.
2. Replace the earbuds in the case. Turn your device's Bluetooth® OFF and then back On. Then repeat the pairing process.

Charging

1. Replace the earbuds in the case.
2. Connect the USB-C charging cable to the charging port on the back of the case.
3. Plug the cable into a standard USB 5V/1A or higher power output.

When you plug the case into a charging mechanism the indicator light on the front of the case flashes blue. This means the case battery is being charged.

While this is happening the lights on the buds inside the case glow solid red, which indicates they are being charged.

When fully charged the case LED will glow solid and the earbud LEDs will shut off.

4. When fully charged, unplug the charging cable from the power source.

If want to charge the earbuds from the charge case internal battery, simply replace them in the case. The LED on the front of the case glows solid and the LEDs on the buds will glow solid red.

Territory - Volume 5 Giorgio Lollino, Andrea Manconi, Fausto Guzzetti, Martin Culshaw, Peter Bobrowsky, Fabio Luino, 2014-08-25 This book is one out of 8 IAEG XII Congress volumes and deals with the theme of urban geology. Along with a rapidly growing world population, the wave of urban growth continues, causing cities to swell and new metropolitan centers to emerge. These global trends also open new ventures for underground city development. Engineering geology plays a major role in facing the increasing issues of the urban environment, such as finding aggregates for construction works, providing adequate water supply and waste management, solving building problems associated to geological and geomorphological conditions, evaluating host rock conditions for underground constructions, preventing or mitigating geological and seismic hazards. Furthermore, this book illustrates recent advancements in sustainable land use planning, which includes conservation, protection, reclamation, and landscape impact of open pit mining and alternative power generation. The Engineering Geology for Society and Territory volumes of the IAEG XII Congress, held in Torino from September 15-19, 2014, analyze the dynamic role of engineering geology in our changing world and build on the four main themes of the congress: environment, processes, issues, and approaches. The congress topics and subject areas of the 8 IAEG XII Congress volumes are: 1. Climate Change and Engineering Geology, 2. Landslide Processes, River Basins, 3. Reservoir Sedimentation and Water Resources, 4. Marine and Coastal Processes, Urban Geology, 5. Sustainable Planning and Landscape Exploitation, 6. Applied Geology for Major Engineering Projects, 7. Education, Professional Ethics, and Public Recognition of Engineering Geology, 8. Preservation of Cultural Heritage. *Maine Register, State Year-book and Legislative Manual*, 1955 Moody's Bank and Finance Manual, 1956 **Harper's New Monthly Magazine**, 1886.
