

Part 2

Assume that although Selk owns 30% of Kildaire's outstanding stock, circumstances indicate that it does not have a significant influence over the investee and that it is classified as an available-for-sale security investment.

Required:

1. Prepare journal entries to record the preceding transactions and events for Selk. Also prepare an entry dated January 2, 2015, to remove any balance related to the fair value adjustment. (If no entry is required for a particular transaction, select "No journal entry required" in the first account field.)

The screenshot displays an accounting software interface. A "transaction list" window is open, showing three transactions. To the left, a "Journal Entry" window is partially visible, showing a list of accounts with "Selk p" and "stock" visible. The "transaction list" window has a close button (X) in the top right corner. The transactions are as follows:

Transaction
1. Selk purchased 80,000 shares (30% of total) of Kildaire's common stock for \$2,080,000.
2. Kildaire declared and paid a cash dividend of \$5.20 per share.
3. Kildaire's net income for 2013 is \$1,364,000, and the fair value of its stock at December 31 is \$32.00 per share.
