Jensen's Grammar Frode Jensen, 2017-10-09 Jensen's Grammar lessons and exercises were built with three concepts in mind First spaced repetition is the key to learning hence there is review in every lesson Second the information is given incrementally that is the material comes in a natural progression of detail and concept interwoven so as to move you along with something new each lesson while fitting it in with the material previously learned and practiced Third the sentences in the exercises will generally set a scene or describe an action Thus they are usually more interesting reading in themselves instead of the random sentences in exercises found in most grammar texts Students completing this course will learn valuable skills how to create place and punctuate relative clauses in order to write more sophisticated sentences a simple procedure to reduce the number of words in a sentence to help you search for subjects and verbs how to use a simple chart that unlocks the mystery of differentiating the major parts of speech how to use the words and structures you are being taught in your own sentences understanding the fundamentals of grammar in such a way that you will not forget them but will use them effectively *Christian Home Educators' Curriculum Manual* Cathy Duffy, 1995-07 Cathy Duffy draws upon her many years of home education experience both in teaching and researching curriculum to bring us the most thorough and useful book available on teaching teenagers at home *The Big Book of Home Learning Volume 1 Getting Started* Mary Pride, 2000-09 **Grade Teacher**, 1939 **Handbook of Automated Essay Evaluation** Mark D.
