The Christ Conspiracy Acharya S.,2012-09-04 In this highly controversial and explosive book archaeologist historian mythologist and linguist Acharya S marshals an enormous amount of startling evidence to demonstrate that Christianity and the story of Jesus Christ were created by members of various secret societies mystery schools and religions in order to unify the Roman Empire under one state religion In developing such a fabrication this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era and reworked them for centuries into the religion passed down to us today Contrary to popular belief there was no single man who was at the genesis of Christianity Jesus was many characters rolled into one These characters personified the ubiquitous solar myth and their exploits were well known as reflected by such popular deities as Mithras Heracles Hercules Dionysos and many others throughout the Roman Empire and beyond The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior gods Krishna and Horus who for millennia preceding Christianity held great favor with the people The Christ Conspiracy shows the Jesus character as not unique or original not divine revelation Christianity reinterprets the same extremely ancient body of knowledge that revolved around the celestial bodies and natural forces The result of this myth making has been The Greatest Conspiracy Ever Sold **The Narrow Door and the Great Vehicle** François-Marie Périé,2024-09-20 An independent research opens a revolutionary perspective in the history of religions and sheds new light on the still unexplained emergence of the buddhist Great Vehicle in the 1st century CE demonstrating the influence of the early Christians in the strongly hellenized area of the Kushan Empire China Afghanistan Pakistan Kashmir Northern India heir of Alexander s conquests on the Silk Road where Greek and Aramaic were the two main languages currently spoken and written Two millenia ago the simultaneous spread of Christianity in the West and the Middle East and Mahayana Buddhism in the East redrew the World map but could it be only coincidence Why did new sutras emphasizing compassion devotion voidness sacrifice and universal salvation emerge in the first decades of our era in the Buddhism of the Origins Why did at the same time as Greek Buddhist art a Western triad of buddhas appear in Gandhara composed by a buddha of infinite light Amitabha a white bodhisattva of compassion Avalokiteshvara the Tibetan Chenrezig emanated out of Infinite Compassion by the later

and a third one bringer of power and inspiration Mahasthamaprapta Did Zoroastrism and Mithraism played a role in this spiritual revolution and why are some Gnostic texts of Nag Hammadi so close to the Mahayanist cosmogonies notions and terms Furthermore the sudden and abundant literature and iconography of the Great Vehicle saw in the same years the appearance of a messianic buddha Maitreya of a feminine and salvific figure embodiment of Wisdom the Prajnaparamita that would become T r and of the Western Paradise of the Pure Land making them very close In this new turning of the wheel of Dharma the bodhisattva renouncing Nirvana and sacrificing himself to free the whole of Humanity kind became the ultimate value Here are some of the interrogations among many others raised by this research and answered in a way never done before

The Science of Planetary Signatures in Medicine Jennifer T. Gehl, 2017-01-27 A comprehensive guide to the cosmic influences that underlie health and how to apply them for profound health and healing Examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below Reveals how one s astrological chart has implications for personal health and healing Explains how each sign of the zodiac corresponds not only to parts of the body and its chakras but also to specific plants herbs colors and emotions Explores how to use sound healing to harmonize astrological imbalances When we look at the vast and intricate cosmos galaxies planets organisms organs cells molecules atoms there is a fundamental order a music or harmony of the spheres Our cells reflect the images of galaxies seen through our telescopes We are the microcosm reflecting the macrocosm

of the heavens Our ancestors understood these patterns and connections between humanity and the universe and developed spiritual and healing traditions in line with these cosmic truths Yet in the 19th century knowledge of these connections was set aside as medical science sought to create the one size fits all approaches to healing that dominate modern medicine today In this comprehensive exploration of the celestial influences that underlie health and healing Jennifer Gehl with Marc Micozzi examines how ancient and modern traditions of healing interconnect through the doctrine of signatures As above so below She reveals how one's celestial nature the arrangement of the cosmos at the moment of birth has implications for personal health and how each sign of the zodiac corresponds to parts of the body the chakras and specific plants herbs colors and emotions She explains how sound re arranges forms according to the principles of harmony leveraging not only the human self regulating capacity to restore health but also that of the Earth to restore balance and harmony Also explored are the recurrence of geometric forms in nature and how to apply this knowledge in sound healing and medical astrology Weaving together the threads of ancient science and spirit that formed the original tapestry of medicine Gehl explains how to restore the cosmic foundations of healing for personal planetary and universal health and wellbeing The Tao of Christ Lao Tzu, Marshall Davis, 2017-05-23 The Tao of Christ is a Christian interpretation of the sixth century BC Chinese classic the Tao Te Ching It translates this ancient work into concepts and language recognizable to Christians while maintaining the integrity of the ancient text The Tao of Christ bridges the gap between East and West It sheds light on two great spiritual traditions Those who love the Tao Te Ching will see Christianity in a new light Christians who love Christ will see this ancient Chinese work as evidence of God's wider revelation to all peoples *Exciting Classrooms* Frank Thoms, 2015-12-08 Frank Thoms writes with passion to invite principals and teachers to make changes that will allow all students to succeed In this book he urges them to reconsider traditional practices in light of today's media driven culture and digitally wired students *Exciting Classrooms* is sensitive to the challenges schools face and is relentless in offering strategies to meet these challenges Schools must do better Rather than focus on improving test scores this book advocates that teachers teach to a child's whole symphony not only to one note If students only learn to succeed on bubble tests they will not have opportunities to discover their true potential Thoms sees the teaching process as a joint venture between teacher and student where the teacher brings learning to the student and at the same time brings the student to the learning This process demands at least as much listening as talking a new habit that teachers and principals need to learn *Metagenealogy* Alejandro Jodorowsky, Marianne Costa, 2014-08-22 A practical guide to recognizing and overcoming the patterns and influences of the four generations before you Provides exercises to uncover your family's psychological heritage heal negative patterns of behavior and illness in your family tree and discover your true self Explains how we are the product of two forces repetition of familial patterns from the past and creation of new ideas from the Universal Consciousness of the future Interwoven with examples from Jodorowsky's own life and his work with the tarot psychoanalysis and psychomagic The family tree is not

merely vital statistics about your ancestors It is an embodied sense of self that we inherit from at least four prior generations constituting both a life giving treasure and a deadly trap Each of us is both an heir of our lineage and a necessary variation that brings the family into new territory Are you doomed to repeat the patterns of your parents and grandparents Or can you harness your familial and individual talents to create your own destiny In Metagenealogy Alejandro Jodorowsky and Marianne Costa show how every individual is the product of two forces the imitating force directed by the family group acting from the past and the creative force driven by the Universal Consciousness from the future Interweaving examples from Jodorowsky s own life and his work with the tarot psychoanalysis and psychomagic the authors provide exercises visualizations and meditations to discover your family s psychological heritage and open yourself to the growth and creativity of Universal Consciousness They reveal how identifying the patterns emotional programming and successes and failures of the four generations that influence you your siblings parents aunts uncles grandparents and great grandparents allows you to see beyond the stable identity formed by family lineage It frees you to overcome your inherited subconscious patterns of behavior and illness stop the transmission of these patterns to future generations and reconnect with your true self and unique creative purpose in life By understanding your family tree and your place in it you open your ability to heal the ancient struggle between the repetitive forces of the past and the creative forces of the future
