Jewish Studies Between The Disciplines Jewish Studies Between The Disciplines:

Jewish Studies Between the Disciplines / Judaistik zwischen den Disziplinen Klaus Herrmann, Margarete Schlüter, Giuseppe Veltri, 2003-06-01 Peter Schfer who celebrated his 60th birthday on 29 June 2003 has left a decidedly firm imprint on the young discipline Jewish Studies in Germany which could only be set up at a German university after the Shoah. For someone directing a small academic institution he has managed during his academic career to guide and influence a strikingly large number of students in their scholarly pursuits in the field. The collected essays of this volume encompass quite a variety of topics whereby the focal points in Peter Schfer's own research are not difficult to recognize in the themes chosen by his former students: mysticism and magic are most conspicuous, followed by Rabbinic Judaism and the studies on the Middle Ages and the Early Modern and Modern Periods. Of note is also the fact that the methodological approaches of these contributions are no less manifold than their themes. Part of the contributions of this book were submitted in English and all the German language texts have an English summary or abstract.

Feminist Perspectives on Jewish Studies Shelly Tenenbaum, 1994-01-01 This work evaluates the development of feminist scholarship within Jewish studies. Scholars in biblical studies, rabbinics, theology, history, anthropology, philosophy, and film studies assess the state of knowledge about women in these fields and how they have affected the mainstream.

Jewish Studies at the Crossroads of Anthropology and History Ra'anan S. Boustan, Oren Kosansky, Marina Rustow, 2011-01-24 Over the past several decades the field of Jewish studies has expanded to encompass an unprecedented range of research topics, historical periods, geographic regions, and analytical approaches. Yet there have been few systematic efforts to trace these developments, to consider their implications, and to generate new concepts appropriate to a more inclusive view of Jewish culture and society. *Jewish Studies at the Crossroads of Anthropology and History* brings together scholars in anthropology, history, religious studies, comparative literature, and other fields to chart new directions in Jewish studies across the disciplines. This groundbreaking volume explores forms of Jewish experience that span the period from antiquity to the

present and encompass a wide range of textual ritual spatial and visual materials The essays give full consideration to non written expressions of ritual performance artistic production spoken narrative and social experience through which Jewish life emerges More than simply contributing to an appreciation of Jewish diversity the contributors devote their attention to three key concepts authority diaspora and tradition that have long been central to the study of Jews and Judaism Moving beyond inherited approaches and conventional academic boundaries the volume reconsiders these core concepts reorienting our understanding of the dynamic relationships between text and practice and continuity and change in Jewish contexts More broadly this volume furthers conversation across the disciplines by using Judaic studies to provoke inquiry into theoretical problems in a range of other areas *Educational Theory and Jewish Studies in Conversation* Harvey Shapiro, 2013

Educational Theory and Jewish Studies in Conversation From Volozhin to Buczac by Harvey Shapiro PhD brings together two different fields of study modern Jewish studies and contemporary educational theory to provide new theoretical frameworks for their interaction Although Jewish studies and education programs at secular universities have joined denominational and transdenominational institutions of higher learning in adopting a dual or parallel course structure there has been little scholarly attention given to the basis for doing so Shapiro provides alternative theoretical frameworks for the relationship between Jewish studies and educational theory and discusses different ways of developing and articulating these relationships between disciplines Shapiro shows what is at stake when students and faculty think and communicate together across discourses in particular between the fields of education and Jewish studies Presenting an alternative to conventional notions of interdisciplinarity this book s import extends to virtually all relationships between the humanities and professional education when these different discourses illuminate and challenge one another **The Oxford Handbook of Jewish Studies** Martin Goodman, Jeremy Cohen, David Sorkin, 2002 This volume on Jewish studies presents surveys of today s interests and directions in the humanities and social sciences It covers the main areas taught and researched as part of Jewish studies in universities throughout the world especially in Europe the US and Israel *The Princeton Companion to Jewish Studies* Leora Batnitzky, Eve Krakowski, Steven Weitzman, 2025-10-14 An authoritative guide to Jewish studies reflecting the latest research in a diverse and flourishing field Jewish studies is a dynamic interdisciplinary field that draws on the methods of the modern academy historical research anthropology literary studies philosophy religious studies sociology feminism and the study of the arts and culture among others to illuminate the past and present of Jewish life thought and expression This book provides an entry point to Jewish studies for readers who want to learn about the questions it raises and the insights it generates Although no single volume can capture the full breadth of the field this Princeton Companion encompasses some of the most important subfields of Jewish studies presenting new historical research and introductions to the many other disciplines that can be brought to bear on Jewish history and experience The editors all distinguished scholars of Jewish studies have gathered contributions from a range of prominent and up and coming figures in

McDonough,Nadeem A. Memon,Avi I. Mintz,2013-09-03 The education provided by Canada s faith based schools is a subject of public political and scholarly controversy As the population becomes more religiously diverse the continued establishment and support of faith based schools has reignited debates about whether they should be funded publicly and to what extent they threaten social cohesion These discussions tend to occur without considering a fundamental question How do faith based schools envision and enact their educational missions Discipline Devotion and Dissent offers responses to that question by examining a selection of Canada s Jewish Catholic and Islamic schools The daily reality of these schools is illuminated through essays that address the aims and practices that characterize these schools how they prepare their students to become citizens of a multicultural Canada and how they respond to dissent in the classroom The essays in this book reveal that Canada s faith based schools sometimes succeed and sometimes struggle in bridging the demands of the faith and the need to create participating citizens of a multicultural society Discussion surrounding faith based schools in Canada would be enriched by a better understanding of the aims and practices of these schools and this book provides a gateway to the subject

philosophy from an infelicitous pigeonhole these philosophers so pointedly sought to reject but more important emancipates philosophy from its false claims to universalism
