This stunning illustrated children's book takes an innovative look at the circle of life including animals, dinosaurs, stars, volcanoes and even YOU. Everything has a beginning and an end, but what happens in between? Follow the migration of zebra across the vast plains, meet penguins guarding their eggs on the ice and watch butterflies emerge from their cocoons. Shoot back in time 4.5 billion years to see how planet Earth was formed and then leap into the future to see what happens when stars die. Discover a new life cycle every time you turn the page. You'll take a closer look at the life cycles of environments too. Discover how a river forms and changes over time. Find out how a tree grows and all of the other life cycles it supports within it. See the amazing sculptures the ocean waves carve out of cliffs. Dive beneath the surface to see how coral reefs form and what causes them to die. Follow the life cycles of weather from the water cycle to ice ages to give you a better grasp of the climate situation we find ourselves in now. From the single-celled amoeba to how the Earth formed, the life cycles in this ebook have been carefully chosen to give you an amazing overview of the universe and how everything is intricately linked. Filled with facts to amaze your friends, stunning photography and beautifully detailed illustrations by Sam Falconer, *Life Cycles* gets to grips with the essence of life itself.
