IP and Antitrust: An Analysis of Antitrust Principles Applied to

Intellectual Property Law, 3rd Edition Hovenkamp, Janis, Lemley, Leslie, Carrier, 2016-01-01 *Economics*, 1999 IP

and Antitrust Christina Bohannon, 2013 *Producing Prosperity* Randall G. Holcombe, 2013 The substantial prosperity that

characterizes market economies at the beginning of the twenty first century is relatively recent in human history Prior to the

Industrial Revolution economic progress was so slow that people would not have been able to recognize it in their lifetimes

whereas today economic progress is so much a part of people's lives that they take it for granted In this new volume Randall

G Holcombe argues that economic analysis as it developed through the twentieth century relies heavily on concepts of

economic equilibrium and is not descriptive of the dynamic real world economy that is characterized by economic progress

Even in dynamic settings economic models focus on income growth leaving out the entrepreneurial forces that generate

economic progress resulting in the introduction of new goods and services and new production processes Economic analysis

focuses on the forces that lead to an economic equilibrium not the forces that produce prosperity This characterization of

economic analysis describes a substantial component of economics as it has developed over the past century However there

are also economists who have analyzed the factors that lead to an entrepreneurial and innovative economy generating

progress rather than equilibrium This volume does not question the value of past research but argues that looking ahead

economics should build on its past to focus on factors that create an entrepreneurial and innovative economy that is

characterized by progress and prosperity This would make economic analysis more consistent with the remarkable progress

and prosperity that characterizes the modern economy This volume lays out a framework for economic analysis that

consistently incorporates the real world factors that produce prosperity **Telecom Antitrust Handbook**, 2005
