borders are challenged at both the macro and the micro level as a result of sociopolitical change in turns shapes literary and cultural circulation In its examination of the intersection of the linguistic and social in translational relations in the Serbo Croatian context the book can offer wider insights into better understanding the literary and translational landscape of analogous sociolinguistic and geographic milieus This volume will be of interest to scholars in literary translation translation theory sociology of translation comparative literature and multilingualism

Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire croise the history of translations transformations and migrations that conditioned its relationship with the West
