Environmental Engagement and Cultural Value: Global Perspectives for Protecting the Natural World Fanli Jia, Tobias Krettenauer, 2020-02-04 Environmental issues are a rapidly growing focal point in today's global discussion. These issues are becoming increasingly pertinent due to the potentially devastating outcomes of human environmental carelessness. As a species, humans now have realized the need for worldwide environmental engagement. This engagement is intended to heighten awareness about environmental problems, build knowledge in education, and change human behaviors to improve sustainability. Synthesizing the literature on cultural dimensions, e.g., attitudes, beliefs, values, that undergird positive views of environmental issues and engagement of sustainability practices would significantly contribute to the development of effective approaches to fostering sustainable environmental practices. Through the identification of commonalities across cultures and sensitivity to cultural differences, we can begin to work toward a global consensus on viable solutions. This critical issue.

Children, Citizenship and Environment Bronwyn Hayward, 2012-08-21 Children growing up today are confronted by four difficult and intersecting challenges: dangerous environmental change, weakening democracies, growing social inequality, and a global economy marked by unprecedented youth unemployment and unsustainable resource extraction. Yet on streets everywhere there is also a strong youthful energy for change. This book sets out an inspiring new agenda for citizenship and environmental education, which reflects the responsibility and opportunities facing educators, researchers, parents, and community groups to support young citizens as they learn to make a difference on the issues that concern them. Controversial yet ultimately hopeful, political scientist Bronwyn Hayward rethinks assumptions

about youth citizenship in neoliberal democracies Her comparative discussion draws on lessons from New Zealand a country where young citizens often express a strong sense of personal responsibility for their planet but where many children also face shocking social conditions Hayward develops a SEEDS model of ecological citizenship education Social agency Environmental Education Embedded justice Decentred deliberative democracy and Self transcendence The discussion considers how the SEEDs model can support young citizens democratic imagination and develop their handprint for social justice From eco worriers and citizen scientists to streetwise sceptics Children Citizenship and Environment identifies a variety of forms of citizenship and discusses why many approaches make it more difficult not easier for young citizens to effect change This book will be of interest to a wide audience in particular teachers of children aged eight to twelve and professionals who work in Environmental Citizenship Education as well as students and researchers with an interest in environmental change democracy and intergenerational justice Introduced by Tim Jackson author of Prosperity without Growth the book includes forewords by leading European and USA academics Andrew Dobson and Roger Hart Half the author s royalties will be donated to child poverty projects following the earthquakes in Christchurch New Zealand Follow Bronwyn Hayward s blog at <http://growinggreens.blogspot.co.nz> See Bronwyn Hayward discuss the book at <http://www.youtube.com/watch?v=kptEw1aZXtM> feature you tube

art and design theology social work economics languages education business and built environment **Sustainable Development and Learning** William Scott, Stephen Gough, 2003 This book examines the difficult and wide ranging issues relating to how we understand our environment our place in it and how we choose to act This comprehensive text provides an overview of these developing key issues illustrating how through schooling higher education professional training and development and awareness raising people can bring about change as well as engaging in debate and critique of issues The book builds on existing work across a number of fields as well as on original international research in order to model the complexity of the problems the institutional contexts in which they arise and the interrelationships between these Areas explored include the policy context the links between sustainable development and learning the economic and moral interdependence of humans and nature the management assessment and evaluation of learning and globalisation The book suggests ways in which those responsible for learning can target their efforts appropriately matching straightforward solutions to simple problems and designing complex interventions only where these are needed This text will be a valuable resource for anyone studying Masters degrees and MBAs that focus on environment or sustainable development and for professionals dealing with problems on a day to day basis Though a free standing text its analysis is supported by a companion reader Key Issues in Sustainable Development and Learning a critical review **Spirals of change** Rudi Schollaert, Pieter Leenheer, 2006 This book is an outcome of BASICS a SOCRATES COMENIUS 2 1 project B A S I C S is a transnational project aiming to improve the succes rate of educational reform in the European Union B A S I C S is an acronym for Building Agency for School Improvement Coherence and Sustainability **Post-Pandemic Realities and Growth in Eastern Europe** Silvia L. Fotea, Ioan Ș. Fotea, Sebastian Văduva, 2022-10-10 As the COVID 19 crisis comes to an end leaders organizations and governments have to develop a new normal for doing business with a focus on protecting the environment integrating new technologies and adapting to new social changes Based on empirical studies and conceptual contributions from researchers and practitioners presented at the Griffiths School of Management IT s 12th Annual Conference on Business Entrepreneurship and Ethics GSMAC this proceedings volume provides a multifaceted perspective on the impact and effects of the COVID 19 pandemic on various public and private systems including education business organizations and consumer behavior In particular this book explores the impact of the pandemic on remote work and employee health sustainable development and economic growth among others It also highlights the role of data analysis in understanding trends opportunities and challenges in the above systems **Education for Sustainable Development** Brian Chalkley, Martin Haigh, David Higgitt, 2013-09-13 In 2005 The United Nations launched its Decade of Education for Sustainable Development which recognises that education including Higher Education is the key to the change in social attitudes that will be needed to protect the welfare of future generations This involves helping learners to live as though the future matters and to achieve ecoliteracy This includes the understanding that personal lifestyle decisions may have

consequences ranging from climate change through loss of biodiversity to pollution and resource depletion that may permit environmental degradation on a planetary scale. It also involves helping them to develop the skills needed to cope with such challenges. This international collection of research papers and position statements from special issues of the Journal of Geography in Higher Education and Applied Environmental Education and Communication, written by many of the leading practitioners in the field, aims to provide resources and practical guidance for all seeking to promote and engage in education for a sustainable future. Rabindranath Tagore encouraged each learner to make their actions demonstrate a harmonious union between education and environment. David Orr argued that the world needs people who live well in their places to make the world both habitable and humane and that the main challenge for education is to help learners make their minds fit for life on Earth. This book tries to chart a practical route towards these objectives. This book was previously published as special issues of the Journal of Geography in Higher Education and Applied Environmental Education and Communication.

The Nature of Transformation Darlene E. Clover, Bruno de O. Jayme, Budd L. Hall, Shirley Follen, 2013-02-11. The Nature of Transformation: Environmental Adult Education is based on 15 years of educating for social environmental change around the world. It is for adult and community educators, trainers, literacy and health care practitioners, social activists, community artists and animators, labour educators and professors in higher education interested in weaving environmental issues into their educational practice. It is also for environmental activists and educators who want to link social issues to environmental issues and problems. This book is a contribution to the discourse and practice of adult education in the community and/or the academy aimed to respond creatively and critically to the contemporary socio-environmental crisis and to encourage hope and a stronger sense of political agency through an ecological approach to teaching and learning. The Nature of Transformation includes a discussion of key adult education theories we used to augment our educational practice, provides a plethora of educational activities, shares workshop design considerations and some of the challenges we faced in our work as well as stories from adult and community educators around the world. The book concludes with a list of resources to enhance understandings of adult education theory and practice. The Nature of Transformation illustrates how to critically and creatively integrate the rest of nature concepts of ecological and gender and justice, citizenship, critical environmental consciousness and activism into educating and learning in community settings, organisations, education institutions or workplaces. In particular, there is an emphasis on using the arts as a tool for learning and change. With its emphasis on acknowledging and confronting ecological oppression, working towards socio-environmental justice, ensuring hope and fun are integral to the learning process, encouraging defiance, agency and creativity, challenging assumptions and helping people to find solutions, environmental adult education is a valuable player in any pedagogical quest for change and transformation.

GREEN SKILLS FOR THE 21ST CENTURY LEARNER: EDUCATIONAL PERSPECTIVES AND PRACTICES Dr. Sasmita Pattanaik, Dr. Sreeparna Chowdhury, Dr. Pranay Pandey, Dr. Shafeeqa Khurshid, 2025-08-06. The 21st century

presents a host of unprecedented challenges and opportunities for learners educators and societies at large Among the most pressing of these challenges is the need to respond to the global environmental crisis with urgency creativity and collective action As the world grapples with climate change resource depletion and ecological imbalances there is a growing consensus that education must play a central role in equipping individuals with the knowledge values and competencies necessary for a sustainable future It is within this context that the concept of green skills has gained prominence Heidegger, Politics and Climate Change Ruth Irwin, 2011-10-27 The scale of some environmental problems such as climate change and human overpopulation exceed any one nation state and require either co ordinated governance or a shift in the culture of modernity Heidegger Politics and Climate Change examines this crisis alongside Heidegger s ideas about technology and modernity Heidegger suggests that refocusing on the primary questions that make it meaningful to be human the question of Being could create the means for alternative discourses that both challenge and sidestep the attempt for total surveillance and total control He advocates recognising the problematic relationship humanity has with the environment and reinventing new trajectories of understanding ourselves and our planet This book aims to properly integrate environment into philosophy and political theory offering a constructive critique of modernity with some helpful suggestions for establishing a readiness for blue sky scenarios for the future The book lays out the practical implications of Heidegger s ideas and engages with philosophy of technology considering the constraints and the potentials of technology on culture and environment
