Mastering Emotions Erin Austin Dwyer, 2021-10-21 Emotions were central to the ways that slaveholders perpetuated slavery as well as to the ways that enslaved people survived and challenged bondage and

experienced freedom Mastering Emotions examines the interactions between slaveholders and enslaved people and between White people and free Black people to expose how emotions such as love terror happiness and trust functioned as social and economic capital for slaveholders and enslaved people alike The daily interactions that occurred between slaveholders and enslaved people around emotions in conjunction with larger debates about race and freedom form the backbone of what Erin Austin Dwyer calls the emotional politics of slavery Race and status determined which emotions were permissible or punishable which should be restrained and by whom As a result mastering emotions one s ability to control one s own feelings and those of others was paramount for slaveholders and enslaved The emotional politics of slavery were thus fashioned by enslaved people and slaveholders together through the crucible of slavery Emancipation was a seismic shift in the affective landscape of the antebellum South Though the end of the Civil War rendered moot the debate over how to emotionally maintain slavery the lingering conflict over whether the emotional strictures governing the South would be based on race or free status had serious repercussions particularly for free Black people The postwar rise of legal and extralegal attempts to affectively control free Black people underscored the commitment of elite White Southerners to preserving the power dynamics of the emotional politics of slavery by any means necessary Mastering Emotions concludes by detailing how the long term legacy of those emotional politics reverberated through Reconstruction and the Jim Crow eras

History and the Ever Present Now in Antebellum American Writing examines the meaning and possibilities of the present and its relationship to history and historicity in a number of literary texts specifically the writings of several figures in antebellum US literary history some but not all of whom associated with the period s romantic movement Focusing on nineteenth century writers who were impatient for social change like those advocating for the immediate emancipation of slaves as opposed to those planning for a gradual end to slavery the book recovers some of the political force of romanticism Through close readings of texts by Washington Irving John Neal Catharine Sedgwick Frederick Douglass Ralph Waldo Emerson and Herman Melville the book argues that these writers practiced forms of literary historiography that treat the past as neither a reflection of present interests nor as an irretrievably distant other but as a complex and open ended interaction between the two In place of a fixed and linear past these writers imagine history as an experience rooted in a fluid dynamic and ever changing present The political philosophical and aesthetic disposition Insko calls romantic presentism insists upon the present as the fundamental sphere of human action and experience and hence of ethics and democratic possibility
