Measurement and Assessment in Education Cecil R. Reynolds, Ronald B. Livingston, Victor L. Willson, 2006 This text employs a somewhat traditional approach to the study of educational tests and measurement so that teachers will understand essential psychometric concepts and be able to apply them in the classroom The principles that guide the development of this text are 1 What essential knowledge and skills do classroom teachers need to conduct student assessments in a professional manner and 2 What does the research on educational assessment tell us

This focus has resulted in a uniquely approachable but technically accurate presentation of the material While providing a slightly more technical presentation of the material than more basic texts this text is both approachable and comprehensive The text includes a gentle introduction to the basic mathematics of measurement and expands traditional coverage to include a thorough discussion of performance and portfolio assessments a complete presentation of assessment accommodations for students with disabilities and a practical discussion of professional best practices in educational measurement Mastering New York's Grade 8 Intermediate Social Studies Test James Killoran, Stuart Zimmer, Mark Jarrett, 2000 **Mastering the Grade 8 K-PREP in Social Studies - 25 Book Set** American Book Company Staff, 2013 **Mastering the Social Studies MEAP Test Grade 8** James Killoran, Stuart Zimmer, Mark Jarrett, 1998-01-01 South African national bibliography , 1998
