**The Mobility of Modernism** Harper Montgomery, 2017-07-04 Arvey Foundation Book Award Association for Latin American Art 2018 Many Latin American artists and critics in the 1920s drew on the values of modernism to question the cultural authority of Europe Modernism gave them a tool for coping with the mobility of their circumstances as well as the inspiration for works that questioned the very concepts of the artist and the artwork and opened the realm of art to untrained and self taught artists artisans and women Writing about the modernist works in newspapers and magazines critics provided a new vocabulary with which to interpret and assign value to the expanding sets of abstracted forms produced by these artists whose lives were shaped by mobility The Mobility of Modernism examines modernist artworks and criticism that circulated among a network of cities including Buenos Aires Mexico City Havana and Lima Harper Montgomery maps the dialogues and relationships among critics who published in avant gardist magazines such as Amauta and Revista de Avance and artists such as Carlos M rida Xul Solar and Emilio Pettoruti among others who championed esoteric forms of abstraction She makes a convincing case that for these artists and critics modernism became an anticolonial stance which raised issues that are still vital today the tensions between the local and the global the ability of artists to speak for blighted or unincorporated people and above all how advanced art and its champions can enact a politics of opposition Globalizing the Avant-Garde David Ayers, Joana Cunha Leal, Benedikt Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand and art history and theory on the other The contributions in this volume approach this question from a range of perspectives taking into account the role of travel for example or practitioners increasing knowledge of other cultures art s increasing awareness of itself as existing on a global level literary translation the advance of technology and the ever changing grand narratives of art history As well as reflections on European avant gardes and neo avant gardes the collection features discussions of Japan Latin America Africa Asia and the Pacific As a whole the volume engages with broader current discourses about cultural globalization and features input from leading scholars around the world as well as some important novel interventions by early career researchers The authors not only make a major contribution to the evolution of avant garde studies but also offer valuable original points of view to art history and to the cultural theory of globalization more broadly **Xul Solar** Alejandro Xul Solar, Patricia Artundo, 2005 **Los san signos** Alejandro Xul Solar, 2012 The present editorial project brings together for the first time the Visiones de Xul Solar a set of texts comprising the visions experimented by expresionist artist Alejandro Xul Solar b Argentina 1887 1963 after using the 64 hexagrams of the I Ching or Book of Changes Los Signos was a collection of 50 texts that Xul Solar organized between 1937 and 1938 with the intention of a later publication The material corresponds to the visions he started having in 1924 and of which he kept a well documented registry first in four notebooks Cuadernos de San Signos and later in a dactylographic text This carefully edited book comprises the reproduction and transcription of the Neo Creole translation into Spanish of Xul

Solar's San Signos written in an artificial language of his own invention in Spanish of the notebooks left by Xul Solar and guarded for more than 70 years by the Fundacin Pan Klub Includes Xul Solar's paintings that related to the transcriptions of his visions a facet of the artist almost unknown until now
