Susam-Sarajeva,2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler s lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music The Routledge Handbook to Spanish Film Music Laura Miranda,2024-09-12 The Routledge Handbook to Spanish Film Music provides a significant contribution to the research and history of Spanish film music exploring the interdependence and ways in which discourses of sound and vision are constructed dialogically in Spanish cinema with contributions from leading international researchers from Spain the USA the UK France and Germany Offering a multifocal and multidisciplinary study between related areas such as music studies film studies and Spanish cultural studies this book is divided into four sections covering the early years of Spanish cinema the 1940s and 1950s in Spanish cinema the first decades of the Franco dictatorship the importance of Fraga Iribarne s slogan Spain is different to promote Spain s new openness to the world in the 1960s and 1970s and Spanish cinema since the arrival of democracy in 1978 including discussion of contemporary Spanish cinema The growing interest in Spanish cinema calls for the publication of studies about
