And spin me, tiny time-machine!

Now no longer known as

Lost For Words Lost For Words:

LOST WORDS SAHELI MITRA, 2014-06 Born to Bengali parents Geet Nandi is forever lost in her world of scientific experiments experiencing birth and death down scientific parameters She and her brother Chitrak enjoy boundless freedom appreciated by their bohemian mother Shuvangi who dies of cancer early in life But she had never been in want of love as her extended family of uncles none of who shared the ties of the womb with her parents had made her feel belonged Handsome army man Veer uncle from Delhi and eccentric Deep uncle from Kolkata had been her idols Veer s NRI son Jai and Geet make a lovely couple back in USA Every one seems happy when they decide to tie the knot But as the wedding preparations take off a bunch of old letters hidden quietly for years throw all the characters in a tizzy The letters throw up a tale of love and lust lost in the dark alleys of social patriarchy Secrets society and principles play havoc slicing through apparently happy families Is love just a chemical reaction or is it bound by social compulsions And can nameless relationships sustain the test of love *Finding Lost Words* G. Geoffrey Harper, Kit Barker, 2017-03-31 The brokenness of this world inevitably invades our lives But how do you maintain faith when overwhelmed by grief When prayer goes unanswered When all you have are questions not answers What do you say to God when you know he is in control but the suffering continues unabated Is there any alternative to remaining speechless in the midst of pain and heartbreak This book is about finding words to use when life is hard These words are not new They are modes of expression that the church has drawn on in times of grief throughout most of its history Yet the church in the West has largely abandoned these words the psalms of lament The result is that believers often struggle to know what to do or say when faced with distress anxiety and loss Whether you are in Christian leadership training for ministry or simply struggling to reconcile experience with biblical convictions *Finding Lost Words* will help you consider how these ancient words can become your own *Lost Words* L. S. Jacyna, 2009-08-16 In the mid nineteenth century physicians observed numerous cases in which individuals lost the ability to form spoken words even as they remained sane and healthy in most other ways By studying this condition which came to be known as aphasia neurologists were able to show that functions of mind were rooted in localized areas of the brain Here L S Jacyna analyzes medical writings on aphasia to illuminate modern scientific discourse on the relations between language and the brain from the very beginnings of this discussion through World War I Viewing these texts as literature complete with guiding metaphors and rhetorical strategies Jacyna reveals the power they exerted on the ways in which the human subject was constructed in medicine Jacyna submits the medical texts to various critical readings and provides a review of the pictorial representation involved with the creation of aphasiology He considers the scientific experimental and clinical aspects of this new field together with the cultural professional and political dimensions of what would become the authoritative discourse about language and the brain At the core of the study is an inquiry into the processes whereby men and women suffering from language loss were transformed into the aphasic an entity amenable to scientific scrutiny and capable of yielding

insights about the fundamental workings of the brain But what became of the subject's human identity *Lost Words* explores the links among language humanity and mental presence that make the aphasiological project one of continuing fascination
