shows that different historical periods are characterized by emotional regimes where intimacy in the form of desire sex passion and sex largely exist outside marriage and that marriage and traditional normative values and structures are fundamentally incompatible with the expression of intimacy in the history of emotional regimes The book draws on the work of a number of theorists who assess change in emotional regimes by drawing on intimacy including Michel Foucault Eva Illouz Lauren Berlant Anthony Giddens Laura Ann Stoler Anne McClintock Niklas Luhmann and David Shumway Some of the areas covered by the book include Foucault sex and sexuality romantic and courtly love intimacy in late modernity Imperial power gender and intimacy intimacy and feminist interventions and the commercialization of intimacy This book will appeal to students and scholars in the social sciences and humanities including sociology gender studies cultural studies and literary studies

Franklin,Laurel Fulkerson,2020-08-27 The Augustan period in Rome was a golden age for poetry and also the age in which the cult of the author began in the west By examining some early poetic understandings of what it might have meant to be Vergil Ovid and Tibullus Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana explores what those authors meant to near contemporaries and what the construction of authorship they were a part of meant to the later western tradition Constructing Authors and Readers in the Appendices Vergiliana Tibulliana and Ovidiana takes its starting point from the Appendices attached to three major Augustan poets exploring how their different conditions of production and the differences between their authorising authors result in different notions of what an appendical text ought to contain So for instance Vergil s biography leaves ample room for juvenilia while Ovid s does not the Tibullan appendix explicitly engages with a wider poetic community Moving beyond questions of forgery and deception some chapters ask how we would be able to know the difference between texts of genuine and of disputed authorship given that most of the stylistic features that distinguish authors are replicable Other chapters make the case for re evaluation of poems that have been neglected or disparaged and still others make sense of individual works in their likely context of composition The volume is the first to treat in conjunction the majority of the appendical works ascribed to Vergil Ovid and Tibullus and to draw connections across corpora
