Love Letters To Immortals:

Love Letters to Immortals Hansil Moore, 2015-05-30 A book by Hellenic polytheists for Hellenic polytheists

Beethoven's Immortal Beloved Edward Walden, 2011-02-07 In 1812 Ludwig van Beethoven wrote three letters to an unnamed woman whom he called Immortal Beloved. The letters were discovered after Beethoven's death and ever since their discovery there has been speculation regarding whom that Immortal Beloved might have been. In *Beethoven's Immortal Beloved Solving the Mystery* Edward Walden carefully and meticulously presents his case that the woman who Beethoven loved was Bettina Brentano, an artistic and talented musician in her own right. Setting the foundation for his argument, Walden begins the book with a general historical and sequential narrative that interweaves the lives of the three principle protagonists: Beethoven, the writer Johann Wolfgang von Goethe, and Bettina Brentano. Walden explores in detail the key elements of the factual narrative and shows how those elements support his claim that Bettina was the Immortal Beloved. In addition, Walden addresses the attacks other Beethoven scholars have made against Bettina and reveals how such attacks were mistaken or unjustified. Thoroughly and rigorously researched yet presented in a clear and engaging style, *Beethoven's Immortal Beloved* will appeal to Beethoven scholars, music lovers, and general readers alike who will be captivated by the solving of this fascinating mystery.

Beethoven's Immortal Beloved Stefan Romano, 2024-06-17 The day after Beethoven's death on March 26, 1827, his friends found in a secret drawer of his desk, together with his will and two miniature portraits of two young women, a ten-page letter dated July 6 in the morning that began with the intriguing incantation "My angel, my all, myself." It included no address and no name of the addressee except for the now famous "my immortal beloved," hyperbole containing passionate declarations of love and was signed "L. forever yours, forever mine, forever us." Thus was born a biographical mystery of the artistic canon of the Western World, second only in tantalizing appeal to the identity of the person signing as William Shakespeare. Two hundred years later, biographers still have not come to a consensus on the mystery. Of the many candidates advanced in the meantime, only a few have survived in biographical literature. Stefan Roman's book brings the controversy to a close. It clarifies the existing evidence that has often been muddled and at times reached the absurd during almost two centuries of scholarly speculations. He also adds some new insights into the analysis of the evidence, thus making it easier for readers to draw their own conclusions, hopefully not different from his, namely that only one of the candidates proposed so far fits the evidence. He also provides a substantially modified scenario from the one advanced by her proponents. Born in Romania during WWII and immigrated to the U.S.A. in 1989, Stefan Roman is not a musician nor a musicologist. He is an engineer by formation, a man of exactitude and clear and logical thinking qualities that served him thoroughly when he became an amateur Beethoven scholar. A long-time member of the American Beethoven Society and of its French counterpart, Association Beethoven France et Francophonie, he has published in their professional journals, bringing valuable contributions to understanding Beethoven's life and creation. His *Ending the Fifth* article answered a

question that had puzzled musicians scholars and music lovers alike for two hundred years why does Beethoven s Fifth Symphony end with that apparently interminable series of C major chords He took up the pen by force of circumstance for his Beethoven s Immortal Beloved when he realized that all the proposed solutions to the mystery relied on wild speculation and sometimes even falsifying the existing evidence The Immortal, Or, One of the "forty." Alphonse Daudet,1889
