Teresa Torres De Eca, Rachel Kroupp, Bick Har Lam, 2011 It is widely agreed in art education literature that art educators need to think about the possibility of widening the concept of art education Educators need to understand the context of learning and for that they need to understand student interests in both local and global aspects This book values young people's expression of their own culture and personal interests It is unique in that the starting point is the drawings of the young people not to illustrate a predetermined theory but to enable young people from different countries to express their visions about the world illustrated
