Mazda Flat Rock plant The presence of Japan Inc looms larger than ever for millions of American managers and workers as  
hundreds of Japanese companies open plants and offices in local communities across the United States What is it like to work  
for the Japanese Can Americans with their strong tradition of individualism adjust to a Japanese team system that emphasizes  
harmony and close cooperation How do Americans and Japanese resolve the misunderstandings that arise from differences in  
language and culture Journalists Joseph and Suzy Fucini sought the answers by studying relations between Americans and  
Japanese at the Mazda plant in Flat Rock Michigan the first wholly owned Japanese auto plant to employ a unionized  
American workforce For three years the Fucinis followed events at the plant interviewing more than one hundred workers  
managers and outside suppliers The authors conclude that for all its strengths the team system requires the sacrifice of  
individual interests to the good of the group and that no matter how hard an individual tries to become part of the Mazda  
team advancement for both managers and workers will be limited by the fact that they are not Japanese      **Municipal**
