Multipartner Strategic Alliances is a volume in the book series Research in Strategic Alliances that focuses on providing a robust and comprehensive forum for new scholarship in the field of strategic alliances. In particular, the books in the series cover new views of interdisciplinary theoretical frameworks and models, significant practical problems of alliance organization and management, and emerging areas of inquiry. The series also includes comprehensive empirical studies of selected segments of business, economic, industrial, government, and non-profit activities with wide prevalence of strategic alliances. Through the ongoing release of focused topical titles, this book series seeks to disseminate theoretical insights and practical management information that should enable interested professionals to gain a rigorous and comprehensive understanding of the field of strategic alliances.

Managing Multipartner Strategic Alliances contains contributions by leading scholars in the field of strategic alliance research. The 10 chapters in this volume cover a number of significant topics related to the formation, operation, and performance of multipartner strategic alliances, i.e., alliances with more than two members that are increasingly being formed in various industrial sectors. The chapter topics cover both the broader issues such as the peculiar complexities of multipartner alliances that arise because of indirect or generalized reciprocities among its multiple members, vis-à-vis the direct reciprocity within dyadic or two-member alliances, and the roles of power and multilevel embeddedness, and the more focused topics of managing triadic alliances, the evolution of an airline alliance, and the nature of value creation in a consortium. The chapters include empirical as well as conceptual treatments of the selected topics and collectively present a wide-ranging review of the noteworthy research perspectives on the nature, management, and performance of multipartner alliances.

Small Business in a Global Economy Scott L. Newbert, 2015-05-05. This informative set analyzes the dynamics involved with creating, growing, and managing small businesses amid different geographic, institutional, and political environments. This two-volume work explores the behavior and decision making of small companies, their business strategies for launch, growth, and survival, and their contribution to the larger global economy. Utilizing information and data gleaned from proven entrepreneurs and small business operations, this reference provides insight into the political, environmental, and competitive forces that support and impede small business ownership and offers strategies for navigating them. Written by leading researchers from around the world, the set presents a broad view of the small business sector, focusing on conception, ownership, financing, and growth strategies. A look at external factors features the impact of political and environmental influences, extant regulations affecting small firms, and programs for promoting this sector. The first volume takes a micro view of the small business phenomenon.
