Loud And Clear The Memoir Of An Israeli Fighter Pilot:

Loud and Clear Iftach Spector, 2009-06-15 A recently retired Israeli Air Force general and its second highest scoring fighter ace Iftach Spector is one of Israel's living legends. He was the leader of the flight that attacked the USS Liberty in 1967. After the 1967 and 1973 wars in which he commanded a squadron of fighter bombers, he rose to head the IAF's Training and War Lessons Section and later became its Chief of Operations. He was one of the eight Israeli pilots who attacked Saddam Hussein's nuclear reactor at Osirak in 1981. In 2003, his career took an even more dramatic turn; he was the senior signatory of the famous Pilots' Letter in which Spector and 27 other Israeli pilots stated their refusal to bomb targets in Palestine where collateral damage would likely be severe. His maverick conscience is well on display in this artfully written memoir, which is currently a 10-week and counting bestseller in Israel and has been licensed in Brazil as well. The son of a family that immigrated to Palestine at the turn of the 20th century, whose father and mother served in the Palmach, Israel's early clandestine commando force, Spector has written a rich and reflective meditation on loyalty, on what is right and wrong in war, and on his dedication to the idea and reality of the state of Israel. The Pilots' Letter ended Spector's military career but also made him one of the most compelling and celebrated defenders of the conscience of the Jewish state. In that battle, as in his previous battles against Nasser's MiGs, his mother's constant lesson to him sustained him. All from within. General Spector's first book, *A DREAM IN BLACK AND AZURE* (1992), never translated into English, won the Sade Literary Award given to him personally by Prime Minister Yitzhak Rabin. He has a B.A. in history and Middle East Studies from Tel Aviv University and a master's in political science from UCLA, both with honors.

Russia's forceful re entry into the Middle Eastern arena and the accentuated continuity of Soviet policy and methods of the 1960s and 70s highlight the topicality of this groundbreaking study which confirms the USSR's role in shaping Middle Eastern and global history. This book covers the peak of the USSR's direct military involvement in the Egyptian-Israeli conflict. The head-on clash between US armed Israeli forces and some 20 000 Soviet servicemen with state-of-the-art weaponry turned the Middle East into the hottest front of the Cold War. The Soviets' success in this war of attrition paved the way for their planning and support of Egypt's cross canal offensive in the 1973 Yom Kippur War. Ginor and Remez challenge a series of long accepted notions as to the scope, timeline and character of the Soviet intervention and overturn the conventional view that détente with the US induced Moscow to restrain that a US-Moscow détente led to a curtailment of Egyptian ambitions to recapture of the land it lost to Israel in 1967. Between this analytical rethink and the introduction of an entirely new genre of sources: memoirs and other publications by Soviet veterans themselves. *The Soviet-Israeli War* paves the way for scholars to revisit this pivotal moment in world history.

The Age of Airpower Martin Van Creveld, 2011-04-12. A renowned military historian tells the story of airpower's rise in the twentieth century and argues that its great days are over. *Kicking the Hornet's Nest* Daniel E. Zoughbie, 2025-10-07. The compelling groundbreaking investigation of how the choices of twelve US presidents from Truman to Trump have fueled turbulence and turmoil in the Middle East. And the one president who chose a better way. *Kicking the Hornet's Nest* is a riveting exploration of how twelve US presidents have shaped the Middle East, often unleashing instability and conflict along the way. It is also the story of one US president who successfully charted a better course. From Truman to Trump, Daniel Zoughbie meticulously unpacks the decisions that have set the stage for today's unrest. But this book is more than just a history lesson; it's a sharp analysis of presidential decision making and its far-reaching consequences. Today the Middle East stands as a volatile landscape more tumultuous than at any time since the fall of the Ottoman Empire. Zoughbie paints a vivid picture of how nearly every major nation-state in the Middle East and North Africa has grappled with existential crises in the recent years, paving the way for terrorist groups to threaten national sovereignty and for local conflicts to destabilize world order. Drawing on a vast array of primary sources and interviews with world leaders, the narrative explores pressing issues like nuclear proliferation, genocide, and nationalist conflicts fueled by sectarian fervor that have triggered global refugee waves. *Kicking the Hornet's Nest* is an eye-opening study of US presidential decision making and foreign policy. With compassion and insight, Zoughbie reveals the essential information necessary for anyone seeking to understand eight decades of US foreign policy and its profound impact on billions of lives worldwide. **Sword & Shield of Zion** David
