Chaves, Dr Tim McAllister, Dr Elie Jami, Dr Itzhak Mizrahi, Dr Jack B. Hetherington, Dr Pablo Juliano, Dr Rodolfo Garcia-Flores, 2024-09-24 Reviews the range of methods available to evaluate the environmental impact of dairy production Considers the role of the ruminant microbiome on energy harvest and methane emission Addresses how dairy farms can function more sustainably focussing on how energy consumption and water use can be optimised to reduce environmental impact Gender in Spanish Urban Spaces Maria C. DiFrancesco, Debra J. Ochoa, 2018-01-03 This edited collection examines the synergistic relationship between gender and urban space in post millennium Spain Despite the social progress Spain has made extending equal rights to all citizens particularly in the wake of the Franco regime and radically liberating Transición the fact remains that not all subjects particularly women immigrants and queers possess equal autonomy The book exposes visible shifts in power dynamics within the nation's largest urban capitals Madrid and Barcelona and takes a hard look at more peripheral bedroom communities as all of these spaces reflect the discontent of a post nationalistic economically unstable Spain As the contributors problematize notions of public and private space and disrupt gender binaries related with these they aspire to engender discussion around civic status the administration of space and the place of all citizens in a global world **Environmental performance of pig supply chains: Guidelines for assessment (Version 1)** Food and Agriculture Organization of the United Nations, 2018-02-23 This is a living document produced by the

Livestock Environmental and Assessment Performance LEAP Partnership The document presents a methodology and provides guidance for the assessment of the environmental performance of pig supply chains It provides users guidance on how to apply the life cycle assessment approach to pig supply chains Demand for livestock products is projected to grow 1.3 percent per year until 2050 driven by global population growth and increasing wealth and urbanization This projected growth places significant pressure on the livestock sector to perform in a more sustainable way Currently many different methods are used to assess the environmental impacts and performance of livestock products This causes confusion and makes it difficult to compare results and set priorities for continuing improvement The intention of this document is to provide an overview assessment of existing studies and associated methods that have used life cycle assessment for the evaluation of pig supply chains

Nutrient Flows and associated environmental impacts in livestock supply chains. Guidelines for assessment Food and Agriculture Organization of the United Nations, 2018-09-27 The aim of the methodology developed in these guidelines is to introduce a harmonized international approach assessing nutrient flows and impact assessment for eutrophication and acidification for livestock supply chains taking the specificity of the various production systems involved into consideration The methodology strives to increase understanding of nutrient use efficiency and associated environmental impacts and to facilitate the improvement of livestock systems environmental performance The guidelines are a product of the Livestock Environmental Assessment and Performance LEAP Partnership a multi stakeholder initiative whose goal is to improve the environmental sustainability of livestock sector through better metrics and data Nutrient use in livestock production systems increased over the last decades due to the increased demand for livestock production This demand is mainly driven by the increase in the population growth population income and urbanization Consequently in livestock supply chains nutrient losses into the environment have contributed to environmental burdens such as climate change air and water pollution degradation of soil quality loss of biodiversity and human health issues Therefore there is strong interest in measuring nutrient flows to improve the environmental performance of the livestock sector The objectives of these guidelines are To develop a harmonized science based approach resting on a consensus among the sector's stakeholders To recommend a scientific but at the same time practical an approach that builds on existing or developing methodologies To promote a harmonised approach to assess nutrient flows and impact assessment relevant for global livestock supply chains To identify the principal areas where ambiguity or differing views exist concerning the methodological framework During the development process these guidelines were submitted for technical review and public review The purpose is to strengthen the advice provided and ensure it meets the needs of those seeking to improve nutrient use efficiency and environmental performance through sound assessment practice This document is not intended to remain static It will be updated and improved as the sector evolves and more stakeholders become involved in the LEAP and as new methodological frameworks and data become available The guidelines developed by the LEAP Partnership gain strength

because they represent a multi actor coordinated cross sectoral and international effort to harmonize assessment approaches Ideally the harmonization leads to greater understanding transparent application and communication of metrics and not least real and measurable improvement in environmental performance **Assessment in Student Affairs** John H. Schuh,J. Patrick Biddix,Laura A. Dean,Jillian Kinzie,2016-05-23

la desigualdad en el acceso a los recursos hídricos especialmente para los pequeños agricultores la población rural pobre y otras poblaciones vulnerables En El estado mundial de la agricultura y la alimentación 2020 se presentan nuevas estimaciones de la difusión de los problemas de escasez de agua en la agricultura de regadío y deficit hídrico en la agricultura de secano así como del número de personas afectadas Se constatan diferencias importantes entre los países y una considerable variación espacial dentro de ellos A partir de estos datos se examina la forma en que los países pueden determinar políticas e intervenciones apropiadas las cuales dependerán de la naturaleza y la magnitud del problema pero también de otros factores como el tipo de sistema de producción agrícola el nivel de desarrollo del país y sus estructuras políticas Basándose en este examen la publicación ofrece orientación para que los países puedan asignar prioridad a políticas e intervenciones destinadas a superar las limitaciones de la disponibilidad de agua en la agricultura y garantizar al mismo tiempo el acceso eficiente sostenible y equitativo al recurso

La situation mondiale de l'alimentation et de l'agriculture 2020 Organisation des Nations Unies pour l'alimentation et l'agriculture ,2020-12-18 Les contraintes croissantes qui pèsent sur l'eau menacent la sécurité alimentaire et la nutrition Il faut agir d'urgence pour que l'eau soit utilisée dans l'agriculture de façon plus durable et plus équitable L'agriculture irriguée reste de loin le principal utilisateur des ressources en eau douce mais ces ressources font l'objet d'une demande croissante et d'une concurrence accrue qui créent des situations de rareté de plus en plus préoccupantes L'agriculture pluviale confronte la variabilité des précipitations sous l'effet du changement climatique n'est pas non plus épargnée Ces tendances ne feront qu'exacerber les conflits entre les divers utilisateurs et les inégalités dans l'accès à l'eau en particulier au détriment des petits agriculteurs des ruraux pauvres et des autres populations vulnérables L'édition 2020 de La situation mondiale de l'alimentation et de l'agriculture présente de nouvelles estimations sur l'étendue de la rareté de l'eau dans l'agriculture irriguée et des pénuries d'eau dans l'agriculture pluviale ainsi que sur le nombre de personnes touchées Ces estimations font apparaître des écarts considérables entre les pays et globalement entre les régions l'intérieur des pays Les données rassemblées dans la présente édition servent de base à une réflexion sur les mesures que pourraient prendre les pays compte tenu de la nature et de l'ampleur du problème mais aussi d'autres facteurs tels que les systèmes de production agricole le niveau de développement et les structures politiques On trouvera aussi des indications sur les priorités qui pourraient être suivies dans le choix des politiques et des interventions pour lutter contre les contraintes hydriques dans le secteur agricole tout en assurant un accès à l'eau efficient durable et équitable

Progress in Water Footprint Assessment Arjen Y. Hoekstra, Ashok K. Chapagain, Pieter Van Oel, 2019-06-24 Water Footprint Assessment is a young research field that considers how freshwater use scarcity and pollution relate to consumption production and trade patterns This book presents a wide range of studies within this new field It is argued that collective and coordinated action at different scale levels and along all stages of commodity supply chains is necessary to bring about more sustainable efficient and equitable water use The presented studies range from farm to catchment and country level and show how different

actors along the supply chain of final commodities can contribute to more sustainable water use in the chain The Routledge International Encyclopedia of Sport and Exercise Psychology Dieter Hackfort, Robert Schinke, 2020-04-14 The Routledge International Encyclopedia of Sport and Exercise Psychology integrates the topics of motor control physical education exercise adventure performance in sports and the performing arts in several important ways and contexts drawing upon diverse cultural perspectives More than 90 overarching topics have been systematically developed by internationally renowned experts in theory research and practice Each contribution delves into a thematic area with more nuanced vocabulary The terminology drawn upon integrates traditional discourse and emerging topic matter into a state of the art two volume set Volume 1 Theoretical and Methodological Concepts is comprised of theoretical topic matter spanning theories and terminology from psychology contextualized to sport and physical activity sport psychology focused theories and expansive discussions related to philosophy of science and methodology Volume 2 Applied and Practical Measures draws upon practical concepts that bridge theory and research and practice Broader issues that extend beyond sport and physical activity participants are embedded within the entries intended to augment physical mental and social well being This expansive encyclopedia is a must have resource for all professionals scholars and students in the fields of sport psychology and sport science

The State of Food and Agriculture 2020 Food and Agriculture Organization of the United Nations ,2020-11-26 Intensifying water constraints threaten food security and nutrition Thus urgent action is needed to make water use in agriculture more sustainable and equitable Irrigated agriculture remains by far the largest user of freshwater but scarcity of freshwater is a growing problem owing to increasing demand and competition for freshwater resources At the same time rainfed agriculture is facing increasing precipitation variability driven by climate change These trends will exacerbate disputes among water users and inequality in access to water especially for small scale farmers the rural poor and other vulnerable populations The State of Food and Agriculture 2020 presents new estimates on the pervasiveness of water scarcity in irrigated agriculture and of water shortages in rainfed agriculture as well as on the number of people affected It finds major differences across countries and also substantial spatial variation within countries This evidence informs a discussion of how countries may determine appropriate policies and interventions depending on the nature and magnitude of the problem but also on other factors such as the type of agricultural production system and countries level of development and their political structures Based on this the publication provides guidance on how countries can prioritize policies and interventions to overcome water constraints in agriculture while ensuring efficient sustainable and equitable access to water

Socioculturally Responsive Assessment Randy E. Bennett, Linda Darling-Hammond, Aneesha Badrinarayan, 2025-05-01 Socioculturally Responsive Assessment assembles the best available thinking from within and outside the educational measurement community about the theoretical foundations and systems level policy implications of formal assessment programs designed to be socioculturally responsive Synthesized from culturally responsive assessment

design and practices culturally relevant pedagogy and funds of knowledge universal design for learning the learning sciences and other literatures this emerging concept affirms that students learning and performance is inextricably tied to the social cultural and linguistic contexts in which they live and develop knowledge Across four sections this book provides an argument and initial evidence for impact on students users and assessment quality offers guidance for implementation and examines the potential limitations pitfalls barriers and measurement issues that such programs will inevitably raise Scholars teaching faculty test developers and policymakers will come away with integral foundations new assessment approaches and a greater sense of the potential for positive impact that these assessments may afford *World Ocean Assessment* Alan Simcock, 2017-04-17 This United Nations report examines the current state of knowledge of the world's oceans for policymakers and provides a reference for marine science courses **Clinical Neuropsychology** Mark E. Maruish, James A. Moses, 2013-05-13 With the emergence of clinical neuropsychology as one of the fastest growing specialties in psychology comes the need for current and future practitioners to stay abreast of the most recent research A number of professional journals more than adequately meet this need But there is also a need to stay up to date on the current thinking about important problems Drawing upon the expertise of leaders in the field the editors intent in this book was to provide the practitioner with a source for discussions of topics that are vital to their ongoing development as clinical neuropsychologists but that generally are not addressed in the literature to any great degree Integration of environment and nutrition in life cycle assessment of food items: Opportunities and challenges McLaren, S., Berardy, A., Henderson, A., Holden, N., Huppertz, T., Jolliet, O., De Camillis, C., Renouf, M., Rugani, B, 2021-12-23 This report is the outcome of a consensus building project to agree on best practices for environmental and nutritional Life Cycle Assessment nLCA methodology and identify future research needs The project involved 30 nutritional and environmental LCA researchers from 18 countries It focused on the assessment of food items as opposed to meals or diets Best practice recommendations were developed to address the intended purpose of an LCA study and related modeling approach choice of an appropriate functional unit assessment of nutritional value and reporting nLCA results An nLCA study should report the quantities of as many essential nutrients as possible and aim to provide information on the nutritional quality and or health impacts in addition to nutrient quantities Outstanding issues requiring further research attention include defining a minimum number of nutrients to be considered in an nLCA study treatment of nutrients to limit use of nutrient indexes further development of Impact Assessment methods representation of nutritional changes that may occur during subsequent distribution and food preparation in cradle to gate nLCA studies and communication of data uncertainty and variability More data are required for different regions particularly developing countries for the processing distribution retail and consumption life cycle stages and for food loss and waste Finally there is a need to extend nLCA methodology for the assessment of meals and diets to consider further how to account for the multi functionality of food in a sustainability framework and to set nLCA studies within the context of environmental

limits These results provide a robust basis for improving nLCA methodology and applying it to identify solutions that minimize the trade offs between nourishing populations and safeguarding the environment

The Top Books of the Year Louisiana Leap Assessment Guide 2013 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
