

A photograph of a dirt road winding through a forest. The trees on either side have vibrant autumn foliage in shades of orange, yellow, and red. The road leads towards a bright light source, possibly the sun, creating a lens flare effect. The overall mood is peaceful and romantic.

Xenophon's Ephesiaca Aldo Tagliabue,2017-09-25 After many decades of neglect the last forty years have seen a renewed scholarly appreciation of the literary value of the Greek novel Within this renaissance of interest four monographs have been published to date which focus on individual novels I refer to the specialist studies of Achilles Tatius by Morales and Laplace and those of Chariton of Aphrodisias by Smith and Tilg This book adds to this short list and takes as its singular focus Xenophon s Ephesiaca Among the five fully extant Greek novels the Ephesiaca occupies the position of being an anomaly since scholars have conventionally considered it to be either a poorly written text or an epitome of a more sophisticated lost original This monograph challenges this view by arguing that the author of the Ephesiaca is a competent writer in artistic control of his text insofar as his work has a coherent and emplotted focus on the protagonists progression in love and also includes references to earlier texts of the classical canon not least Homer s Odyssey and the Platonic dialogues on Love At the same time the Ephesiaca exhibits stylistically an overall simplicity contains many repetitions and engages with other texts via a thematic rather than a pointed type of intertextuality these and other features make this text different from the other extant Greek novels This book explains this difference with the help of Cou gnas view of paraliterature a term that refers not to its status as non literature but rather to literature of a different kind that is simple action oriented and entertaining By offering a definition of the Ephesiaca as a paraliterary narrative this monograph sheds new light on this novel and its position within the Greek novelistic corpus whilst also offering a more nuanced understanding of intertextuality and paraliterature
