The Tira de Tepechpan Lori Boornazian Diel, 2009-09-15 Created in Tepechpan, a relatively minor Aztec city in Central Mexico, the Tira de Tepechpan records important events in the city's history from 1298 through 1596. Most of the history is presented pictographically. A line of indigenous year signs runs the length of the Tira, with images above the line depicting events in Tepechpan and images below the line recording events at Tenochtitlan, capital of the Aztec empire and later the seat of Spanish rule. Written annotations amplify some of the images. In this volume, which includes color plates of the entire Tira, Lori Boornazian Diel investigates the motives behind the creation and modification of the Tira in the second half of the sixteenth century. She identifies the Tira's different contributors and reconciles their various histories by asking why these painters and annotators, working at different times, recorded the events that they did. Comparing the Tira to other painted histories from Central Mexico, Diel demonstrates that the main goal of the Tira was to establish the antiquity, autonomy, and prestige of Tepechpan among the Central Mexican city states that vied for power and status in the pre-conquest and colonial worlds. Offering the unique point of view of a minor city with grand ambitions, this study of the Tira reveals imperial strategy from the grassroots up, showing how a subject city negotiated its position under Aztec and Spanish control.

Contagion and the Shakespearean Stage Darryl Chalk, Mary Floyd-Wilson, 2019-06-17 This collection of essays considers what constituted contagion in the minds of early moderns in the absence of modern germ theory. In a wide range of essays focused on early modern drama and the culture of theater, contributors explore how ideas of contagion not only inform representations of the senses such as smell and touch and emotions such as disgust, pity, and shame, but also shape how people understood belief, narrative, and political agency. Epidemic thinking was not limited to medical inquiry or the narrow study of a particular disease. Shakespeare, Thomas Middleton, Ben Jonson, Thomas Dekker, and other early modern writers understood that someone might be infected or transformed by the presence of others through various kinds of exchange or if exposed to certain ideas, practices, or environmental conditions. The discourse and concept of contagion provides a lens for understanding early modern theatrical performance, dramatic plots, and theater going itself.
