My Secret Life on the McJob: Lessons from Behind the Counter Guaranteed to Supersize Any Management Style Jerry Newman, 2007-01-02. Once upon a time a Ph.D. went to work at Mickey D's. And what he found was illuminating. Jerry Newman, a college professor who has taught business courses for nearly 30 years, went undercover as a bottom rung worker for the biggest names in fast food including McDonald's and Burger King. Newman found that fast food chains were the perfect petri dishes for covert research. High pressure, high volume businesses with high employee turnover. The pecking order was also crystal clear from fry cook all the way up to store manager. Of the seven restaurants where Newman worked, some were high morale, high productivity machines. Others were miserable, misplaced circles of hell. Yet one common trait stuck out from them all: Each restaurant's respective manager determined the climate of the work environment. Go behind the fast food counter with Newman and see what happens on an average day on the McJob: how the restaurants are run, for better or worse; how managers reward good employees when raises are impossible; believe it or not, bosses give em more hours and it works; how morale and motivation spring directly from the manager's office; and how a few simple adjustments to your own management style. The Supersized Management Principles in this book can transform and invigorate your workplace.
