Porfilio,2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and dis ability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production *Electricity and Magnetism* ,2005 **Children's Books in Print, 2007** ,2006 *Human Biology* James Trefil,2005 *Chemical Interactions* ,2005 **The Changing Earth: Teacher's ed** ,2005 4Th Michael Ebifegha,2017-12-20 4th Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters The Darwinian theory of evolution begins with facts science of microevolution and ends with fiction myths of macroevolution The myths are part of our experience no transitional organisms in the living world and part of our discoveries no transitional fossils in such deposits at the Burgess Shale and Chengjiang sites where various kinds of organisms appear together in large collection In his fourth book Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters author Michael Ebifegha stresses that real science is timeless and based on events that are directly or indirectly observable testable and repeatable Challenging evolutionists and their clerical allies who are banning the teaching of creationism in public schools Ebifegha insists that evolutionism is also outside sciences purview and therefore should be banned as well He reprimands clerics for capitalizing on human knowledge but failing to recognize the validity of Gods personal claim in speech before an audience and in print on stone tablets for having created the world These interventions he asserts fulfills the worlds standard legal requirement for

inventors Ebifegha argues that the inconsistency of imposing evolutionism as scientific truth on the public and banning creationism violates 1 the academic rights of accomplished scientists who disagree with evolutionism on scientific grounds 2 the US Supreme Courts 1992 declaration At the heart of liberty is the right to define ones own concept of existence of meaning of the universe and of the mystery of human life and 3 Gods historical claim to ownership of the universe Instead of separation of church and state Ebifegha recommends separation of worldviews and state **Space Science: Teacher's ed**
