His Religion And Hers Classics In Gender Studies:

His Religion and Hers Charlotte Perkins Gilman, 2003 Charlotte Perkins Gilman's *His Religion and Hers* is a brave critique of organized religion and the consequences that a male constructed religion has on everyday life. She suggests that through the development of secular ethics religion can be directed not to the anticipation of a mythical afterlife but instead to the transformation of the present. Courageously questioning why neither religion morality nor ethics has made us good, she demonstrates the ways in which a male driven ideology has produced a religion focused on death and discourages any attention to the improvement of life on earth. Offering new thoughts that advocate a collective change of view, this volume delves intensively into religion and the influence of gender. Coming generations will welcome this new edition of *His Religion and Hers* now with an introduction by noted scholar Michael S. Kimmel. The Unemployed Man and His Family Mirra Komarovsky, 2004-10-22 In *The Unemployed Man and His Family*, noted sociologist and feminist Mirra Komarovsky poses the question: what happens to the authority of the male head of the family when he fails as a provider? Between 1935 and 1936 Komarovsky interviewed 59 families in 1935-36 in which the male had been unemployed for at least a year. Interestingly, in many cases the husband's struggle in the economic sphere did not offset the solidity and happiness of the marital relationship. But unemployment seems to have affected the men's sense of their own position as head of household and providers. For one thing, it undermined their sense of themselves as breadwinners. Most found it unbearably humiliating to accept relief. Perhaps her most important finding, which still resonates today, was that those men who thought of themselves exclusively as providers suffered far more than those who had developed alternative identities as father and husband.

Hubbard, 2013-11-21 *A Companion to Greek and Roman Sexualities* presents a comprehensive collection of original essays relating to aspects of gender and sexuality in the classical world. Discusses Greece and Rome in each chapter with sensitivity to the continuities and differences between the two classical civilizations. Addresses the classical influence on the understanding of later ages and religion. Women in the Modern World Mirra Komarovsky, 2004-09-10 In *Women in the Modern World*, noted feminist and sociologist Mirra Komarovsky begins with a consideration of biology. Reflecting on these now familiar arguments that the natural biological differences between women and men dictate different social roles, Komarovsky demolishes these arguments by carefully reviewing studies that find sex differences in cognitive abilities, achievement, and psychological predispositions. In successive chapters, Komarovsky explores how differential socialization produces the differences that we think we observe between women and men and how gender inequality disfigures the lives of women, men, and the

relationships between them One chapter examines how it plays out among college students at Barnard in the first college generation after the Second World War Many of these bright and ambitious women feel trapped between their talents and the constraints of feminine domesticity mapped out for them by social expectations Successive chapters examine the costs of choosing either alternative Full time homemakers feel at best overworked and undervalued and at worst resentful and bitter Many regret the painful reorganization of life and long instead for the relinquished occupation It is this longing she argues that leads so many women to flit from one evanescent interest to another arriving at late or middle age without anything that would given meaning or continuity to their lives

Human Work Charlotte Perkins Gilman,2005-05-18 Human Work represents the first ground breaking analysis by noted feminist Charlotte Perkins Gilman on the equal importance of work in the lives of men and women Gilman asserts that men created an economic dependence that has prevented women from success in the workplace Introduced by noted scholars Michael Kimmel and Mary Moynihan this is necessary reading for anyone interested in power and gender structures in the workplace

Women in College Mirra Komarovsky,2004-11-11 In Women In College Mirra Komarovsky followed her groundbreaking works on gender roles to focus on the essentialist debate Komarovsky interviewed post WWII generation female students about their feelings about gender inequality and domesticity She makes a strong case for the role of society over biology in shaping gender roles

communities through both large scale analyses and detailed studies From curse tablets in Britain to multilingual communities in Judaea Palestine from Greece to Rome to the Black Sea and across nearly a millennium the epigraphic outputs of cities and individuals underscore a collective understanding of the value of inscribed texts

Ritual and the Poetics of Closure in Flavian Literature Angeliki-Nektaria Roumpou, 2023-08-07 This collection of papers responds to the question of whether a ritual at the end of a text can offer resolution and order or rather a complicated kind of closure It reveals that ritual can bring but also can thwart closure by alluding to new beginnings A ritual could be a perfect kind of ending but it hardly ever seems to be In Flavian literature this is even more apparent because of the complicated political background under which these texts were produced Ancient religious practices in the closing sections of Flavian texts help us create connections between endings and new beginnings order and disorder binding and loosening structure and dissolution which reflects the structure of the Empire in Flavian Rome Overall this volume offers a new tool for studying literary endings through ritual which promotes our understanding of Flavian culture and politics as well as creating a new perception of the use of religion and ritual in Flavian literature instead of giving a sense of closure this volume argues that ritual is a medium to increase complexity to expose ritual actors and to project a generic riskiness of ritual actors also onto the epic actors who are acting before and mostly after a ritual scene

Classical Literature and Posthumanism Giulia Maria Chesi, Francesca Spiegel, 2019-11-14 The subject of the posthuman of what it means to be or to cease to be human is emerging as a shared point of debate at large in the natural and social sciences and the humanities This volume asks what classical learning can bring to the table of posthuman studies assembling chapters that explore how exactly the human self of Greek and Latin literature understands its own relation to animals monsters objects cyborgs and

robotic devices With its widely diverse habitat of heterogeneous bodies minds and selves classical literature again and again blurs the boundaries between the human and the non human not to equate and confound the human with its other but playfully to highlight difference and hybridity as an invitation to appraise the animal monstrous or mechanical machinic parts lodged within humans This comprehensive collection unites contributors from across the globe each delving into a different classical text or narrative and its configuration of human subjectivity how human selves relate to other entities around them For students and scholars of classical literature and the posthuman this book is a first point of reference **Epicurus in**
