Themes in Religion and American Culture Philip Goff, Paul Harvey, 2004 Designed to serve as an introduction to American religion this volume is distinctive in its approach instead of following a traditional narrative the book is arranged thematically Eleven chapters by top scholars present in carefully organized and acc

The Geography of Religion Roger W. Stump, 2008-04-04 The only book of its kind this balanced and accessibly written text explores the geographical study of religion Roger W Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space He begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs The author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition Stump explores the efforts of religious groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities Examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups Refreshingly jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry

The Human Mosaic Terry G. Jordan-Bychkov, 2005-08-19 Carrying forward the legacy of original author Terry Jordan Bychkov Mona Domosh and new coauthors Roderick Neumann and Patricia Price offer this thoroughly updated new edition of the acclaimed introduction to the cultural geography of the world today The result is a text that maintains its original distinctive style while addressing contemporary issues and situations that students care about most importantly the continuing phenomenon of globalization The Thematic Approach of The Human Mosaic The Human Mosaic introduces five themes in the opening chapter culture region cultural diffusion cultural ecology cultural interaction and cultural landscape then uses those themes as a framework for the topical chapters that follow Each theme is applied to a variety of geographical topics demography agriculture the city religion language ethnicity politics industry folk and popular culture Through this organization students are able to relate to the most important aspects of cultural geography at every point in the text

The

World's Religions Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent. **A Documentary History of Religion in America to 1877** Edwin S. Gaustad, Mark A.

Noll, 2003-09-19 A richly variegated selection of short documents illustrative of the history of religion in America. The best source book available to contemporary students and general readers. *Reference Sources in History* Ronald H. Fritze, Brian E. Coutts, Louis A. Vyhnanek, 2004-03-09 Fully annotated and completely updated the most comprehensive guide to reference books in the field of history. Reference Sources in History catalogs atlases encyclopedias dictionaries handbooks sourcebooks bibliographies and chronologies and makes sense of it all. Its broad scope and systematic organization make it an accessible reliable resource for experienced and inexperienced researchers alike. Fully annotated and updated the new edition summarizes hundreds of reference works on every conceivable subject in history from ancient to modern from Afghanistan to Zimbabwe. This edition also reflects the dramatic impact of the digital revolution on historical research by integrating a wide range of Internet and CD ROM sources. Reference Sources in History is a time saving alternative to searching the reference stacks or getting lost in an online thicket of dubious historical websites. *The Times History of the World* Richard Overy, 2008 The history of the world is replete with conflict change revolution and innovation. Yet there are points in history at which we can draw close parallels between our past and present. Our history shapes the way we live today even as we might strive to break away from the bounds of the past. With a narrative scope beginning with human origins around 5 million years ago and ending with global communications and the economy and environment in the modern age. The Times History of the World is a superb accomplishment. The body of the text is a chronological sweep across the history of the world split geographically and thematically. In addition historian Richard Overy gives us his opinions in an exclusive extended article which enables him to freely explore the lessons the world has learnt from history as well as the ways in which the world is constantly changing. He shows how the world has in a sense become smaller as communications and technology become more and more prevalent but how wars and conflicts poverty and religion can still drive us apart. Concluding with thoughts on what will be the dominant factors driving the world in the future. Richard Overy gives us a rare opportunity to consider world history in one magnificent sweep.
