

To cling to protocols while people suffer is to declare that **lives are less valuable than bureaucracy.**

And no umbrella, no guidelines, no bulletin can shield them from the judgment of those left to drown in the storm. They think the storm will wash away their sins, but it will not. For when the waters recede, the people will remember. When the raging typhoon finally calms down, history will not ask how strong the storms were, but how weak the leaders stand on the very same flooded grounds.

Building Blocks of Society James W. Cortada, 2020-11-25 The history of information is a rapidly emerging new subfield of history Historians are identifying the issues they need to examine crafting novel research agendas and locating research materials relevant to their work Like the larger world around them historians are discovering what it means to live and work in a world that increasingly sees itself as an information society Long a discussion point among sociologists economists political leaders and media experts historians are integrating their methods and research into the larger conversation This book proposes a way to look at the history of information and to history as a whole that is simultaneously relevant to observers in other disciplines and familiar to historians of business economics sociology and technology The author presents that advocacy in two ways with theoretical and historiographical discussions of what information ecosystems and infrastructures are and their value for this kind of research second through a range of case studies applying those concepts The wide range of case studies is purposeful in demonstrating the applicability of the ideas presented in the early methodological chapters Themes mentioned in each of the early chapters are consistently applied in all subsequent chapters This book breaks from the more traditional historiography of book history sociological and philosophical discussions about knowledge and society The first two chapters focus on the craft of the historian in this new field better known as historiography and methods Subsequent chapters are case studies showing what results when a historian writes about ecosystems and infrastructures moving our discussion from theory to practice The book is an important and substantive contribution to this new subfield an essential primer as well as a major statement for all historians on how next to evolve their craft

Building Trust in the International Monetary System Giovanni Battista Pittaluga, Elena Seghezze, 2021-07-15 This book presents the evolution of the international monetary system from the gold standard to the monetary system in force today It adopts a

political economy approach emphasizing the economic and political conditions under which an international monetary system can come into existence and be maintained over time This approach highlights how the gradual transition in the international context from commodity money to fiat money has been led by the need for greater elasticity of money supply and smooth adjustments This transition however raises the issue of how to guarantee over time the value of a money devoid of intrinsic value By presenting a historical evolution the book explains how the existence of an international monetary system based on money without intrinsic value can only occur when a particular balance of power exists at the international level that allows for the production of trust in a fiat money The book is a must read for scholars researchers and students in the fields of economic history and international monetary economics interested in better understanding the evolution of the international monetary system **History of Seattle from the Earliest Settlement to the Present Time** Clarence Bagley,1916
