Jewish-Christian Dialogue and the Life of Wisdom Matthew Levering, 2010-03-21 This book inquires as to whether theological dialogue between Christians and Jews is possible not only in itself but also as regards the emergence of communities of Messianic Judaism In light of David Novak's insights Matthew Levering proposes that Christian theological responses to supersessionism need to preserve both the Church's development of doctrine and Rabbinic Judaism's ability to define its own boundaries The book undertakes constructive philosophical theology in dialogue with Novak Exploring the interrelated doctrines of divine providence theonomy the image of God and natural law Levering places Novak's work in conversation especially with Thomas Aquinas whose approach fosters a rich dialogue with Novak's broadly Maimonidean perspective It focuses upon the relationship of human beings to the Creator with attention to the philosophical entailments of Jewish and Christian covenantal commitments aiming to spell out what true freedom involves It concludes by asking whether Christians and Jews would do better to bracket our covenantal commitments in pursuing such wisdom Drawing upon Novak's work the author argues that in the face of suffering and death God's covenantal election makes possible hope lacking which the quest for wisdom runs aground

Nietzsche, Soloveitchik, and Contemporary Jewish Philosophy Daniel Rynhold, Michael J. Harris, 2018-06-28 What does one do as a Jewish philosopher if one is convinced by much of the Nietzschean critique of religion Is there a contemporary Jewish philosophical theology that can convince in a post metaphysical age The argument of this book is that Rabbi Joseph Soloveitchik 1903 1993 the leading twentieth century exponent of Modern Orthodoxy presents an interpretation of halakhic Judaism grounded in traditional sources that brings a life affirming Nietzschean sensibility to the religious life Soloveitchik develops a form of Judaism replete with key Nietzschean ideas which parries Nietzsche's critique by partially absorbing it This original study of Soloveitchik's philosophy highlights his unique contribution to Jewish thought for students and scholars in Jewish studies while also revealing his wider significance for those working more broadly in fields such as philosophy and religious studies

Martin Buber and the Human Sciences Maurice Friedman, 2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one's own thought categories and knowing as deriving in the first instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber's death his influence is still resonating in many countries and in many fields

Dialogues between Faith and Reason John H. Smith, 2011-10-15 The contemporary theologian Hans Kng has asked if the death of God proclaimed by Nietzsche as the event of modernity was inevitable Did the empowering of new forms of rationality in Western culture beginning around 1500 lead necessarily to the

reduction or privatization of faith In *Dialogues between Faith and Reason* John H Smith traces a major line in the history of theology and the philosophy of religion down the slippery slope of secularization from Luther and Erasmus through Idealism to Nietzsche Heidegger and contemporary theory such as that of Derrida Habermas Vattimo and Asad At the same time Smith points to the persistence of a tradition that grew out of the Reformation and continues in the mostly Protestant philosophical reflection on whether and how faith can be justified by reason In this accessible and vigorously argued book Smith posits that faith and reason have long been locked in mutual engagement in which they productively challenge each other as partners in an ongoing dialogue Smith is struck by the fact that although in the secularized West the death of God is said to be fundamental to the modern condition our current post modernity is often characterized as a postsecular time For Smith this means not only that we are experiencing a broad based return of religion but also and more important for his argument that we are now able to recognize the role of religion within the history of modernity Emphasizing that thanks to the logos located in the beginning the death of God is part of the inner logic of the Christian tradition he argues that this same strand of reasoning also ensures that God will always return often in new forms In Smith's view rational reflection on God has both undermined and justified faith while faith has rejected and relied on rational argument Neither a defense of atheism nor a call to belief his book explores the long history of their interaction in modern religious and philosophical thought

A Short History of Jewish Ethics

Alan L. Mittleman, 2012-01-17 *A Short History of Jewish Ethics* traces the development of Jewish moral concepts and ethical reflection from its Biblical roots to the present day. Offers an engaging and thoughtful account of Jewish ethics. Brings together and discusses a broad range of historical sources covering two millennia of writings and conversations. Combines current scholarship with original insights. Written by a major internationally recognized scholar of Jewish philosophy and ethics. Elliot N. Dorff: In Search of the Good Life Hava Tirosh-Samuelson, Aaron W. Hughes, 2014-07-17 Rabbi Elliot N. Dorff, the Sol and Anne Dorff Distinguished Professor of Philosophy and Rector of American Jewish University in Los Angeles, is one of today's leading Jewish ethicists. Writing extensively on the intersection of law, morality, science, religion, and medicine, Dorff offers an authoritative and non-Orthodox interpretation of Jewish law. As a leader in the Rabbinical Assembly's Committee on Jewish Law and Standards, he has shaped the religious practices of Conservative Jews. In serving on national advisory committees and task forces, he has helped to articulate a distinctive Jewish voice on contested bioethical and biomedical issues. An analytic philosopher by training, Dorff has endorsed pluralism, arguing that Jewishness best flourishes in the context of American pluralism, and he has worked closely with non-Jews to advance religious pluralism in America. A Touch of the Sacred Dr. Eugene B. Borowitz, Frances Schwartz, 2015-04-13 Our faith in God and our love of Judaism are tested daily by our turbulent world and personal challenges. In this special book, Dr. Eugene Borowitz, the leading theologian of liberal Judaism, offers a highly accessible guide to the questions we've all wrestled with in our spiritual lives. In these pages, Borowitz shares with you his rich inner life, which draws from both the rational and mystical Jewish thought that have inspired two generations of rabbis, cantors, and educators, and will now inspire you.
