Religion in the Classroom Jonathan M. Golden, Joseph J. McCallister, 2023-09-21 An indispensable resource for

understanding religion's place in American schools and in matters concerning the separation of church and state in the United States. There are few places where the tension between freedom of religion and separation of church and state is more salient than in America's public schools. This book serves as a point of reference for many of the most important instances of this tension, including the court cases, laws, and legal documents, policies, and principles involved. Approximately 50 reference entries are included, covering topics such as the American Civil Liberties Union, school dress code, and the Scopes Trial. The entries provide cross references and suggestions for further reading, and the volume closes with an annotated bibliography.

Yearbook of Muslims in Europe, Volume 7 Oliver Scharbrodt, Samim Akgönül, Ahmet Alibašić, Jørgen Nielsen, Egdūnas Raciūnas, 2016-04-26. Now in a new format with a more current and topical focus on a country level. While the strength of the Yearbook has always been the comprehensive geographical remit, starting with volume 7 the reports primarily concentrate on more specific and topical information. The most current research available on public debates, transnational links, legal or political changes that have affected the Muslim population and activities, and initiatives of Muslim organizations from surveyed countries are available throughout the Yearbook. At the end of each country report, an annual overview of statistical and demographic data is presented in an appendix. By using a table format, up-to-date information is quickly accessible for each country. To see how these changes affect the articles, please read this sample chapter about Austria. The Yearbook of Muslims in Europe is an essential resource for analysis of Europe's dynamic Muslim populations. Featuring up-to-date research from forty-six European countries, the reports provide cumulative knowledge of on-going trends and developments around Muslims in different European countries. In addition to offering a relevant framework for original research, the Yearbook of Muslims in Europe provides an invaluable source of reference for government and NGO officials, journalists, policy makers, and related research institutions.

Judaism in Transition Carmel U. Chiswick, 2014-06-04. At the core of Judaism stands a body of traditions that have remained consistent over millennia. Yet the practice of these rituals has varied widely across historical and cultural contexts. In *Judaism in Transition*, Carmel U. Chiswick draws on her Jewish upbringing, her journey as a Jewish parent, and her perspective as an economist to consider how incentives affect the ways that mainstream American Jews have navigated and continue to manage the conflicting demands of everyday life and religious observance. Arguing that economics is a blind spot in our understanding of religion, Chiswick blends her personal experiences with economic analysis to illustrate the cost of Jewish participation financially and more importantly in terms of time and effort. The history of American Jews is almost always told as a success story in the secular world. Chiswick recasts this story as one of innovation in order to maintain a distinctive Jewish culture while keeping pace with the steady march of American life. She shows how tradeoffs, often made on an individual and deeply personal level, produce the brand of Judaism which predominates in America today. Along the way, Chiswick explores salient and controversial topics from intermarriage to immigration and from egalitarianism to connections with Israel. At once a portrait of American Jewish culture and a work that

outlines how economic decisions affect religion Judaism in Transition shows how changes in our economic environment will affect the Jewish community for decades to come **Seek Ye First the Kingdom of God** Dr. Julia Floyd Jones, 2014-01-27

Framing Jewish Culture Simon J. Bronner, 2014-01-01 Modernity offers people choices about who they want to be and how they want to appear to others The way in which Jews choose to frame their identity establishes the dynamic of their social relations with other Jews and non Jews a dynamic complicated by how non Jews position the boundaries around what and who they define as Jewish This book uncovers these processes historically as well as in contemporary behavior and finds explanations for the various manifestations in feeling and action of being Jewish Boundaries and borders raise fundamental questions about the difference between Jews and non Jews At root the question is how Jewish is understood in social situations where people recognize or construct boundaries between their own identity and those of others The question is important because this is by definition the point at which the lines of demarcation between Jews and non Jews and between different groupings of Jews are negotiated Collectively the contributors to the book expand our understanding of the social dynamics of framing Jewish identity The book opens with an introduction that locates the issues raised by the contributors in terms of the scholarly traditions from which they have evolved Part I presents four essays dealing with the construction and maintenance of boundaries two by scholars showing how boundaries come to be etched on an ethnic landscape and two by activists who question and adjust distinctions among neighbors Part II focuses on expressive means of conveying identity and memory while in Part III the discussion turns to museum exhibitions and festive performances as locations for the negotiation of

identity in the public sphere A lively discussion forum concludes the book with a consideration of the paradoxes of Jewish heritage revival in Poland and the perception of that revival by Jews and non Jews **The Experiment at Philadelphia**
