**When Music Takes Over in Film** Anna K. Windisch, Claus Tieber, Phil Powrie, 2023-05-02 This open access collection deals with musical moments in film as one of the most pivotal and compelling issues of current film music research Musical moments as defined by Amy Herzog occur when a musical number inverts the normal relationship between the image track and the soundtrack in a film in such a way that what we see is determined by what we hear As one potential approach this definition provokes a variety of perspectives to investigate the disruptive potential of these moments and numbers as a creative device in the production of audiovisual narratives In this sense the book responds to a need for an anthology that introduces students as well as scholars of cinema musicology media studies and cultural studies more broadly to recent discourses in film music scholarship The volume includes contributions by early career researchers as well as by established experts in the fields of musicology film studies media studies and cultural studies promoting cross disciplinary collaboration in film music research

**Black Ephemera** Mark Anthony Neal, 2022-03-08 PROSE Award Music and Performing Arts Category Winner A framework for understanding the deep archive of Black performance in the digital era In an era of Big Data and algorithms our easy access to the archive of contemporary and historical Blackness is unprecedented That iterations of Black visual art such as Bert Williams's 1916 silent film short *A Natural Born Gambler* or the performances of Josephine Baker from the 1920s are merely a quick YouTube search away has transformed how scholars teach and research Black performance While *Black Ephemera* celebrates this new access it also questions the crisis and the challenge of the Black musical archive in a moment when Black American culture has become a global export Using music and sound as its primary texts *Black Ephemera* argues that the cultural DNA of Black America has become obscured in the transformation from analog to digital Through a cross reading of the relationship between the digital era and culture produced in the pre digital era Neal argues that Black music has itself been reduced to ephemera at best and at worst to the background sounds of the continued exploitation and commodification of Black culture The crisis and challenges of Black archives are not simply questions of knowledge but of how knowledge moves and manifests itself within Blackness that is obscure ephemeral fugitive precarious fluid and increasingly digital *Black Ephemera* is a reminder that for every great leap forward there is a necessary return to the archive Through this work Neal offers a new framework for thinking about Black culture in the digital world

*Open Water* Caleb Azumah Nelson, 2021-04-13 WINNER OF THE COSTA FIRST NOVEL AWARD A NATIONAL BOOK FOUNDATION 5 UNDER 35 WINNER OF THE BRITISH BOOK AWARD FOR DEBUT FICTION

*Open Water* is tender poetry, a love song to Black art and thought, an exploration of intimacy and vulnerability between two young artists learning to be soft with each other in a world that hardens against Black people. Yaa Gyasi, author of *Homegoing*. In a crowded London pub, two young people meet. Both are Black British, both won scholarships to private schools where they struggled to belong, both are now artists: he a photographer, she a dancer, and both are trying to make their mark in a world that by turns celebrates and rejects them. Tentatively, tenderly, they fall in love. But two people who seem destined to be together can still be torn apart by fear and violence, and over the course of a year, they find their relationship tested by forces beyond their control. Narrated with deep intimacy, *Open Water* is at once an achingly beautiful love story and a potent insight into race and masculinity that asks what it means to be a person in a world that sees you only as a Black body, to be vulnerable when you are only respected for strength, to find safety in love only to lose it. With gorgeous, soulful intensity and blistering emotional intelligence, Caleb Azumah Nelson gives a profoundly sensitive portrait of romantic love in all its feverish waves and comforting beauty. This is one of the most essential debut novels of recent years, heralding the arrival of a stellar and prodigious young talent.

*The Visual Cultures of Childhood* Karen Wells, 2020-03-20 Some of the most iconic images of the twentieth century are of children: Dorothea Lange's *Migrant Mother* depicting farm worker Frances Owens Thompson with three of her children; six-year-old Ruby Bridges flanked by U.S. marshals walking down the steps of an all-white elementary school she desegregated; Hu nh C ng t s photograph of nine-year-old Phan Thi Kim Phuc fleeing a South Vietnamese napalm bombing. These iconic images, with their juxtaposition of the innocent in the sense of not culpable figure of the child and the guilty perpetrators of violence, both structural and interpersonal, are arresting. The power of the image of the child to arrest the spectator to demand a response from her has given the representation of children a central place in

the history of visual culture for social reform This book analyses a range of forms and genres from social reform documentary through feature films and onto small and mobile media to address two core questions What difference does it make to the message who the producer is and How has the place of children and youth changed in visual public culture I Got Something to Say Matthew Oware,2018-07-11 What do millennial rappers in the United States say in their music This timely and compelling book answers this question by decoding the lyrics of over 700 songs from contemporary rap artists Using innovative research techniques Matthew Oware reveals how emcees perpetuate and challenge gendered and racialized constructions of masculinity femininity and sexuality Male and female artists litter their rhymes with misogynistic and violent imagery However men also express a full range of emotions from arrogance to vulnerability conveying a more complex manhood than previously acknowledged Women emphatically state their desires while embracing a more feminist approach Even LGBTQ artists stake their claim and express their sexuality without fear Finally in the age of Black Lives Matter and the presidency of Donald J Trump emcees forcefully politicize their music Although complicated and contradictory in many ways rap remains a powerful medium for social commentary Classical Music in a Changing World Lawrence Kramer,2021-09-07 In recent years classical music has become a test case for debates over the future of culture As times have changed the value traditionally placed on this music has been challenged on social rather than aesthetic grounds Lovers of classical music have been asked how its privileged history can be reconciled with growing demands for social justice and social inclusiveness They have been asked how the music s standing as one of the great accomplishments of the West can be reconciled with the many injustices on which those accomplishments in part depended How can the future of classical music escape the darker shadows of its past Classical Music in a Changing World Crisis and Vital Signs addresses the crisis provoked by such questions in two complementary ways Several of the chapters show how the classical music world is already grappling with the crisis and finding vital signs beyond the borders of the music s traditional European strongholds in Turkey from Ottoman times to the present in Colombia and in a Black American film Other chapters identify areas that still need improvement especially on behalf of female and LGBTQ musicians and suggest how advances can be made both on concert stages and in schools This volume which opens with an introduction by Alberto Nones that contextualizes the book and outlines the main arguments of its chapters contains an essay by Lawrence Kramer that examines the place of classical music in the history of consciousness a history now changing rapidly and concludes with a Postscript written by the two editors The writing in this volume will be accessible to a wide audience including scholars and students professionals and amateurs performers and listeners Teachers will find it a source of lively classroom debate and scholars a source of learning outside the usual arenas The book s vital signs include the accompanying audio tracks available for download at <https://vernonpress.com/book/1281> which feature vibrant music making from a diverse range of performers and composers
