Jihad Academy The Rise Of Islamic State:

Jihad Academy Nicolas Hénin, 2015-09-30 When you keep repeating that the worst is about to happen it finally does The threat of terrorism has caught up with us By invading Iraq in 2003 and not intervening in Syria since 2011 we have helped fuel radicalization And we continue to fuel it by making diplomatic compromises with dictators by refusing to heed the suffering of populations and by failing to invent counter speech What is the responsibility of our societies in the creation of these new jihadists How are they molded How have we played the Islamic State s game and spread its propaganda allowing it to invade our neighborhoods and enlist more and more recruits ready to fight for a distorted fantasy of Islam Nicolas Hénin presents the case against the West showing how its mistakes and inaction have contributed to the disaster He also advances possible strategies to repair what can still be repaired

Realm of the Fox C.P. Thomas, 2020-10-28 He lives in the shadows all his life Invisible yet observant staring at the

greyness trying to unravel an un unravelable web for meaning for information that his master so impatiently seeks that his nation so desperately needs Beyond the visible frontiers of the nation there exists a realm that is invisible to many A realm that is defended by very special warriors The Intelligence officers Sneaky and shadowy these officers remain engaged in a constant battle to outfox the enemy The defense of this realm determines the nation s capability to thwart subversive threats Threats that can compromise national security to the point of toppling governments or losing territory It could mean the allegiance of a region or a section of people being lost to the enemy or even the death of democracy itself What are the unseen dangers that our nation faces today and how does our Intelligence agency match up to the challenge How do we unleash the full power of Intelligence of Knowing

Military Thought of Asia Kaushik Roy, 2020-11-04 Military Thought of Asia challenges the assertion that the generation of rational secular ideas about the conduct of warfare is the preserve of the West by analysing the history of ideas of warfare in Asia from the ancient period to the present The volume takes a transcontinental and comparative approach to provide a broad overview of the evolution of military thought in Asia The military traditions and theories which have emerged in different parts of Eurasia throughout history are products of geopolitics and unique to the different regions The book considers the systematic and tight representation of ideas by famous figures including Kautlya and Sun Tzu At the same time it also highlights publications on military affairs by small men like mid ranking officers and scattered ideas regarding the origin nature and societal impact of organised violence present in miscellaneous sources like coins inscriptions paintings and fictional literature In so doing the book fills a historiographical gap in scholarship on military thought which marginalises Asia to the part of cameo and historicises the evolution of theory and the praxis of warfare The volume shows that the East has a long unbroken tradition of conceptualising war and its place in society from the Classical Era to the Information Age It is essential reading for those interested in the evolution of military thought throughout history particularly in Asia

Divided, Not Conquered Evan Perkoski, 2022 From terrorist disputes to splinter offshoots an inside look at how armed groups break apart Terrorist rebel and insurgent groups are highly unstable Amid fears of defeat and even death intense disagreements have torn many organizations apart from Syria to Iraq Ireland to Spain And while some of these divisions have preceded a group s decline and eventual defeat others have launched some of the most notorious and deadly organizations in recent history In *Divided Not Conquered* Evan Perkoski analyzes how armed groups fracture and how breakaway splinter groups behave Perkoski takes an unprecedented look inside these organizations to understand the specific disagreements that cause groups to break apart like those over ideology leadership and strategy Drawing on research from organizational studies to social psychology and leveraging analogies from business firms to religious sects Perkoski shows how these disputes uniquely shape the behavior and survivability of emerging splinters When motivated by single shared disagreements splinters exhibit higher cohesion clearer objectives and greater survivability When motivated by strategy splinters attract hardline operatives who steer the group towards increasingly lethal tactics and

strategies Including case studies of republican militants in Northern Ireland Basque militants in Spain and the Islamic State in Syria and Iraq Divided Not Conquered demystifies a complex yet common phenomenon with ramifications for counterinsurgency counterterrorism and our understanding of increasingly fragmented conflicts around the globe

Domestic Legal Pluralism and the International Criminal Court Justin Su-Wan Yang, 2021-09-20 This book explores how the unique historical development of Islamic Shari a criminal law alongside English common law in northern Nigeria has created a hybridised criminal legal system through a pluralist dynamic of mutual accommodation It studies how this system may potentially be accommodated by the International Criminal Court The work examines how this could be accommodated through the current understanding and operation of complementarity and that it could ultimately prove to be preferable in encouraging the Shari a courts to exercise criminal justice over the radical insurgents in northern Nigeria These courts would have the unprecedented ability to combine binding adjudicative judgments together with religious interpretation and guidance which can directly combat the predominantly unchallenged domain of ideology by extremist actors It is submitted that these pluralist perspectives are timely and welcome given the undeniably Western European foundations of modern International Criminal Law In exploring such potential avenues our shared understanding of modern international criminal justice is widened to necessarily include other stakeholders beyond its Western founders It is the aim and hope that such interactions and engagements with non Western traditions and cultures will lead to a greater shared ownership of the international criminal justice project which will only strengthen the global fight against impunity The book will be essential reading for academics researchers and policy makers working in the areas of International Criminal Law Legal Pluralism Islamic Shari a Law Nigeria and religiously inspired violence

Herodotus in the Anthropocene Joel Alden Schlosser, 2020-07-15 We are living in the age of the Anthropocene in which human activities are

recognized for effecting potentially catastrophic environmental change In this book Joel Alden Schlosser argues that our current state of affairs calls for a creative political response and he finds inspiration in an unexpected source the ancient writings of the Greek historian Herodotus Focusing on the Histories written in the fifth century BCE Schlosser identifies a cluster of concepts that allow us to better grasp the dynamic complexity of a world in flux Schlosser shows that the Histories which chronicle the interactions among the Greek city states and their neighbors that culminated in the Persian Wars illuminate a telling paradox at those times when humans appear capable of exerting more influence than ever before they must also assert collective agency to avoid their own downfall Here success depends on nomoi or the culture customs and laws that organize human communities and make them adaptable through cooperation Nomoi arise through sustained contact between humans and their surroundings and function best when practiced willingly and with the support of strong commitments to the equality of all participants Thus nomoi are the very substance of political agency and ultimately the key to freedom and ecological survival because they guide communities to work together to respond to challenges An ingenious contribution to political theory political philosophy and ecology Herodotus in the Anthropocene reminds us that the best perspective on the present can often be gained through the lens of the past **Empires of the Mind** Robert

Gildea,2019-02-28 The empires of the future would be the empires of the mind declared Churchill in 1943 envisaging universal empires living in peaceful harmony Robert Gildea exposes instead the brutal realities of decolonisation and neo colonialism which have shaped the postwar world Even after the rush of French and British decolonisation in the 1960s the strings of economic and military power too often remained in the hands of the former colonial powers The more empire appears to have declined and fallen the more a fantasy of empire has been conjured up as a model for projecting power onto the world stage and legitimised colonialist intervention in Afghanistan Iraq and Syria This aggression along with the imposition of colonial hierarchies in metropolitan society has excluded alienated and even radicalised immigrant populations Meanwhile nostalgia for empire has bedevilled relations with Europe and played a large part in explaining Brexit **No**

The Genealogy of Terror Matthew L. N. Wilkinson, 2018-10-03 In the first two decades of the twenty first century the events of 9/11 7/7 the War on Terror and the Caliphate and atrocities of the so called Islamic State have dominated Western consciousness and wreaked havoc in parts of the Muslim majority world In their wake a spate of books has been written explaining the phenomenon of Islamist radicalisation and Jihadism Nevertheless for normal citizens as well as scholars of religion and legal professionals the crucial question remains unanswered how is mainstream Islam different from both Islamism and the Islamist Extremism that is used to justify terrorist violence In this highly original book which draws upon the author's experience as an expert witness in Islamic theology in 27 counter terrorism trials the author uses the idea of the Worldview as well as traditional Islamic theology to answer this question The book explains not only what Mainstream Islam Ideological Islamism and Islamist Extremism are in their broad philosophical characteristics and theological particulars but also explains comprehensively how and why they are both superficially related and yet essentially and fundamentally different In so doing the book also illuminates the cast of characters and the development of their ideas that constitute Mainstream Islam Ideological Islamism and the Non Violent and Violent Islamist Extremists who constitute the Genealogy of Terror

Stakeholders of Terrorism and the Caribbean Emanuel Quashie, 2023-08-30 The book ambitiously seeks to shape our understanding of terrorism by offering a more systematic interpretation of terrorism activism through the Stakeholders of Terrorism concept The author presents an original assessment of terrorism broadly and specifically within the context of the Caribbean through the Stakeholders of Terrorism concept with a view to help the region enhance its counterterrorism policies nationally regionally that recognises the complex inherent duality In doing so the author first borrows from and adds to the prevailing literature as it relates to the various explanatory frameworks psychology religion strategy culture civilization context politics and economic dimensions and the specific stakeholders of terrorism U S mainstream media ISIS and Individual actors lone wolf The Stakeholders of Terrorism concept argues more broadly the

existence of an inherent duality a multiplicity of intangible and tangible negatives and positives that are simultaneously present in most situations concerning terrorism activism *Surviving the Islamic State* Austin Knappe, 2024-07-02 How did ordinary Iraqis survive the occupation of their communities by the Islamic State How did they decide whether to stay or flee to cooperate or resist Based on an original survey from Baghdad alongside key interviews in the field this book offers an insightful account of how Iraqis in different areas of the country responded to the rise and fall of the Islamic State Austin J Knappe argues that people adopt survival repertoires a variety of social practices tools organized routines symbols and rhetorical strategies to navigate wartime violence and detect threats He traces how repertoires varied among different communities over the course of the conflict In areas insulated from insurgent control such as cosmopolitan Baghdad local residents had the flexibility to support coalition forces while also voicing opposition to government policies For Iraqis in rural communities confronting insurgent control collaboration and resistance entailed significant risks In Sunni majority communities in the western desert passive acquiescence and active cooperation temporarily insulated Iraqis from insurgent victimization For ethnic and religious minorities in the north however flight or resistance proved the only viable options In many communities local residents mobilized neighborhood self defense groups and militias loosely aligned with coalition forces once the tides turned against the Islamic State Beyond contributing to academic and policy debates about civilian protection during wartime *Surviving the Islamic State* foregrounds everyday people s experiences while modeling an ethical approach for conducting field research in conflict affected communities **Fundamentalisms Observed** American Academy of Arts and Sciences, 1994-07 The Fundamentalism Project vol 1 **Sayyid Qutb** James Toth, 2013-03-06 Sayyid Qutb is widely considered the guiding intellectual of radical Islam with a direct line connecting him to Osama bin Laden But Qutb has too often been treated maliciously or reductively the Philosopher of Islamic Terror as Paul Berman famously put it in the New York Times Magazine James Toth offers an even handed account of Sayyid Qutb and shows him to be a much more complex figure than the many one dimensional portraits would have us believe Qutb first gained notice as a novelist literary critic and poet but then turned to religious and political criticism aimed at the Egyptian government and Muslims he deemed insufficiently pious After a two year sojourn in the U S he returned to Egypt even more radicalized and joined the Muslim Brotherhood eventually taking charge of its propaganda operation When Brotherhood members were accused of assassinating Egyptian President Gamal Abdel Nasser the group was outlawed and Qutb imprisoned He was executed in 1966 becoming the first martyr to the Islamist cause Using an analytical approach that investigates without passing judgment Toth traces the life and thought of Qutb giving attention not only to his well known Signposts on the Road but also to his less studied works like Social Justice in Islam and his 30 volume Qur anic commentary In the Shade of the Qur an Toth s aim is to give Qutb s ideas a fair hearing to measure their impact and to treat him like other intellectuals who inspire revolutions however unpopular they may be In offering a more nuanced account of Qutb one that moves beyond the

cartoonish depictions of him as the evil genius lurking behind today's terrorists Sayyid Qutb deepens our understanding of a central figure of radical Islam and indeed our understanding of radical Islam itself
