19th century How did she manage To the dismay of her parents my mother eloped at 18 instead of going on to Stanford where she had been admitted Grandpa lost his mother at a young age and gained a stepmother that he apparently didnt like How did my grandparents meet and what attracted them to each other What kind of weddings did they have My questions are endless Ill never get them answered The stories would be precious to know In this spirit I offer these family stories for readers I know and for all others in the future *The Pink Lady Gets a Wake up Call* Nicki Ells,2018-10-30 In 2016 author Nicki Ells is fulfilling her calling She s teaching English at a public high school But halfway through the academic year Ells feels a change within herself a change in her body that signals something is wrong In *The Pink Lady Gets a Wake Up Call* she tells her story through a series of previously published blog posts some of which are pure academia some conjecture and some are just whimsical as Ells takes a break from worrisome thinking and fighting with her body Beginning in 2016 she shares her thoughts on a variety of topics including the education system the health system her trials and her tribulations Ells also reveals the research she conducted about her disease and how it all works and doesn t work and she talks about support groups and the pharmaceutical game This memoir chronicles the journey of this public school creative writing teacher as she takes an in class daily activity of teaching teens and turns it into a personal log of symptoms and experiences Ells narrates how the pain inability to cope and misdiagnosis which skewed any normalcy were now in charge **Death Ritual in Late Imperial and Modern China** James L. Watson,Evelyn S. Rawski,1988 During the late imperial era 1500 1911 China though divided by ethnic linguistic and regional differences at least as great as those prevailing in Europe enjoyed a remarkable solidarity What held Chinese society together for so many centuries Some scholars have pointed to the institutional control over the written word as instrumental in promoting cultural homogenization others the manipulation of the performing arts This volume comprised of essays by both anthropologists and historians furthers this important discussion by examining the role of death rituals in the unification of Chinese culture *The Ritual Effect* Michael Norton,2025-05-20 In the bestselling tradition of Charles Duhigg s *The Power of Habit* and Angela Duckworth s *Grit* a renowned social psychologist demonstrates how a subtle turning of habits into rituals can clear a little space for everyday magic *The Guardian* in our lives Our lives are filled with repetitive tasks meant to keep us on track what we come to know as habits Over time these routines like brushing your teeth or putting on your right sock first tend to be performed automatically But when we re more mindful about these actions when we focus on the precise way they are performed they can instead become rituals Shifting from a habitual mindset to a ritual mindset can convert ordinary acts from black and white to technicolor Think about the way you savor a certain beverage the care you take with a particular outfit that gets worn only on special occasions the unique way that your family gathers around the table during holidays or the secret language you enjoy with your significant other To some these behaviors may seem quirky but because rituals matter so deeply to us on a personal level they give our lives purpose and meaning Drawing on a decade of original research Norton

shows that rituals play a role in healing communities experiencing a great loss marking life's major transitions driving a stadium of sports fans to ecstasy and helping us rise to challenges and realize opportunities Compelling insightful and practical The Ritual Effect reminds us of the intention filled acts that drive human behavior and create surprising satisfaction and enjoyment

Identity and Ritual in a Japanese Diving Village D. P. Martinez, 2004-04-30 Through her detailed description of a particular place Kuzaki cho at a particular moment in time the 1980s D P Martinez addresses a variety of issues currently at the fore in the anthropology of Japan the construction of identity both for a place and its people the importance of ritual in a country that describes itself as nonreligious and the relationship between men and women in a society where gender divisions are still very much in place Kuzaki is for the anthropologist both a microcosm of modernity and an attempt to bring the past into the present But it must also be understood as a place all of its own In the 1980s it was one of the few villages where female divers ama still collected abalone and other shellfish and where some of its inhabitants continued to make a living as fishermen Kuzaki was also a kambe or sacred guild of Ise Shrine the most important Shinto shrine in modern Japan home to Amaterasu the sun goddess Kuzaki's rituals affirmed a national identity in an era when attitudes to modernity and Japaneseness were being challenged by globalization Martinez enhances her fascinating ethnographic description of a single diving village with a critique of the way in which the anthropology of Japan has developed The result is a sophisticated investigation by a senior scholar of Japanese studies that while firmly grounded in empirical data calls on anthropological theory to construct another means of understanding Japan both as a society in which the collective is important and as a place where individual ambitions and desires can be expressed

Awkward Rituals Dana W. Logan, 2022-05-06 A fresh account of early American religious history that argues for a new understanding of ritual In the years between the American Revolution and the Civil War there was an awkward persistence of sovereign rituals vestiges of a monarchical past that were not easy to shed In *Awkward Rituals* Dana Logan focuses our attention on these performances revealing the ways in which governance in the early republic was characterized by white Protestants reenacting the hierarchical authority of a seemingly rejected king With her unique focus on embodied action rather than the more common focus on discourse or law Logan makes an original contribution to debates about the relative completeness of America's Revolution *Awkward Rituals* theorizes an under examined form of action rituals that do not feel natural even if they sometimes feel good This account challenges common notions of ritual as a force that binds society and synthesizes the self Ranging from Freemason initiations to evangelical societies to missionaries posing as sailors Logan shows how white Protestants promoted a class based society while simultaneously trumpeting egalitarianism She thus redescribes ritual as a box to check a chore to complete an embarrassing display of theatrical verve In *Awkward Rituals* Logan emphasizes how ritual distinctively captures what does not change through revolution

Lines,2018-04-12 How do missiologists describe the cosmologies of those that Christianity encounters around the world Our descriptions often end up filtered through our own Western religious categories Furthermore indigenous Christians adopt these Western religious categories This presents the problem of local Christianities described by Kwame Bediako as those that have not known how to relate to their traditional culture in terms other than those of denunciation or of separateness Kevin Lines s phenomenological study of local religious specialists in Turkana Kenya not only challenges our Western categories by revealing a more authentic complexity of the issues for local Christians and Western missionaries but also provides a model for continued use of phenomenology as a valued research method in larger missiological studies Additionally this study points to the ways that local Christians and traditional religious practitioners interpret Western missionaries through local religious categories Clearly missionaries missiologists anthropologists and religious studies scholars need to do a much more careful job of studying and describing the contextually specific phenomena of traditional religious specialists before relying on meta categories that come out of our Western theology or older overly simplified ethnographies The research from this current study of Turkana religious specialists begins that process in the Turkana context and offers a model for future studies in contexts where traditional religion and Christianity intersect

Repak, 2025-07-30 When Terry Repak and her husband moved to West Africa with two small children at the height of the AIDS epidemic in the 1990s she seized the opportunity to connect with people of other cultures and bear witness to the ravages of the disease *Circling Home* chronicles the adventures and challenges of raising children to be global citizens and trying to find home in countries as diverse as Ivory Coast Tanzania and Switzerland Her memoir spotlights the complexity struggles and profound lessons at the heart of the expat journey **The Day My Mother Changed Her Name and Other Stories** William D. Kaufman, 2008-08-18 William Kaufman grew up on his mother's kugel and his father's boyhood stories The son of Jewish immigrants from Lithuania and the Ukraine and one of five children he learned how to translate his colorful childhood into tales of his own regaling audiences of family friends and eventually his retirement community with periodic public readings Now at the age of 93 Kaufman makes his stories filled with a sharp wit and telling detail available to a wider audience for the first time In the title story a young Jewish boy is shamed by his narrow minded teacher when she forces him to admit before the whole class that his mother cannot read English His mother's eventual encounter with the teacher offers a lesson in self respect with just the right balance of grace and moxie In *The Search for God in the A* the expedition meets with comic results when the young boy refuses to be bullied in this David and Goliath style parable These semi autobiographical stories populated with outsized and magnetic characters subtly layer the specifics of the Jewish experience with universal dilemmas of childhood growing up and old age
