Joe Ryder Ireland Musician:

The Musical Life of Nineteenth-Century Belfast Roy Johnston, 2017-07-05 Roy Johnston and Declan Plummer provide a refreshing portrait of Belfast in the nineteenth century Before his death Roy Johnston had written a full draft based on an impressive array of contemporary sources with deep and detailed attention especially to contemporary newspapers With the deft and sensitive contribution of Declan Plummer the finished book offers a telling view of Belfast's thriving musical life Largely without the participation and example of local aristocracy nobility and gentry Belfast's musical society was formed largely by the townspeople themselves in the eighteenth century and by several instrumental and choral societies in the nineteenth century As the town grew in size and developed an industrial character its townspeople identified increasingly with the large industrial towns and cities of the British mainland Efforts to place themselves on the principal touring circuit of the great nineteenth century concert artists led them to build a concert hall not in emulation of Dublin but of the British industrial towns Belfast audiences had experienced English opera in the eighteenth century and in due course in the nineteenth century they found themselves receiving the touring opera companies in theatres newly built to accommodate them Through an energetic groundwork revision of contemporary sources Johnston and Plummer reveal a picture of sustained vitality and development that justifies Belfast's prominent place the history of nineteenth century musical culture in Ireland and more broadly in the British Isles

Sounding Dissent Stephen Millar, 2020-05-07 The signing of the Good Friday Agreement on April 10 1998 marked the beginning of a new era of peace and stability in Northern Ireland As the public overwhelmingly rejected a return to the violence of the Troubles loyalist and republican groups sought other outlets to continue their struggle Music which has long been used to celebrate cultural identity in the North of Ireland became a key means of facilitating the continuation of pre Agreement identity narratives in a post conflict era Sounding Dissent draws on three years of sustained fieldwork within Belfast's rebel music scene in depth interviews with republican musicians contemporary audiences and former paramilitaries as well as diverse historical and

archival material including songbooks prison records and newspaper articles to understand the history of political violence in Ireland The book examines the potential of rebel songs to memorialize a pantheon of republican martyrs and demonstrates how musical performance and political song not only articulate experiences and memories of oppression and violence but also play a central role in the reproduction of conflict and exclusion in times of peace African American Music Mellonee V.
