Tax Reporting on Effective Tax Rate (IAS 12) Eva

Frehner, 2024-09-30 In recent years tax reporting on the effective tax rate ETR of multinational enterprises has been widely debated Annual reports presenting low ETRs created the impression that enterprises did not pay enough taxes compared to individuals or small and medium sized businesses Such financial reporting disclosures led to ongoing discussions about the suitability of the existing international tax system and gave rise to several global tax reforms initiated by the OECD This study analyses the level of compliance with internationally applied best practice for tax reporting on the ETR under the IAS 12 in annual reports based on content analysis scores It studies the correlations between the extent of compliance with tax reporting best practice and ETR values market capitalisation level of internationalisation industry and auditor The author combines the empirical research with a normative approach and thus takes an inside out perspective The normative analysis interprets IAS 12 paragraphs in light of Swiss national and international tax law Furthermore the book discusses the impact of the OECD Global Minimum Tax Reform on tax disclosures and argues that the international tax reform will further increase the complexity of tax reporting
