Historical Theology An Introduction To Christian Doctrine:

Historical Theology Gregg Allison, 2011-04-19 Historical Theology presents the key pillars of the contemporary church and the development of those doctrines as they evolved from the history of Christian thought. Most historical theology texts follow Christian beliefs in a strict chronological manner with the classic theological loci scattered throughout various time periods, movements, and controversies, making for good history but confusing theology. This companion to the classic bestseller *Systematic Theology* is unique among historical theologies. Gregg Allison sets out the history of Christian doctrine according to a topical, chronological arrangement: one theological element at a time, instead of committing to a discussion of theological thought according to its historical appearance alone. This method allows you to contemplate one tenet of Christianity at a time, along with its formulation in the early church, through the Middle Ages, Reformation, and post-Reformation era, and into the modern period. Become familiar with the primary source material of Christian history's most important contributors such as Cyprian, Augustine, Aquinas, Luther, Calvin, Barth, and others. Understand the development of evangelical doctrine with a focus on the centrality of the gospel. Discern a sense of urgent need for greater doctrinal understanding in the whole church. Historical Theology is an easy-to-read textbook for any Christian who wants to know how the church has come to believe what it believes today. Gregg Allison's clear and concise structure makes this resource an ideal introduction to Christian doctrine.

Historical Theology Alister E. McGrath, 2022-11-10 The newly updated and expanded edition of the bestselling introduction to Historical Theology. *Historical Theology: An Introduction to the History of Christian Thought* traces the development of Christian theology from its earliest days to the present. Assuming no prior knowledge of the subject, this authoritative yet accessible textbook introduces the major theological movements, key ideas, and individual theologians of the Patristic Period, the Middle Ages, and Renaissance, the Reformation, and Post-Reformation, and the Modern Era up to the present day. Throughout the book, students explore central themes through numerous case studies, primary readings, and study questions at the end of each section. Now in its third edition, *Historical Theology* includes substantial new sections on theodicy, modern African Christologies, and postcolonial theology. The book retains the structure of the previous editions, covering the key development and people within all the main historical periods while introducing readers to the core themes of historical theology across the centuries. This fully updated new edition provides a general overview of each period covered, including historical background and main theological developments. Features individual case studies and excerpts from primary texts to allow readers to examine specific themes in greater detail. Defines the fundamental theological vocabulary necessary for engaging with other works. Highlights the importance of the discipline of historical theology and its place in wider Christian theology. Contains references to further readings in each chapter and full glossaries of important words, names, phrases, and theological developments. Includes web material developed by the author to help users get the most out of using this textbook, along with sample lectures on some of its themes. Written by one of the most renowned

Theology Jaroslav Pelikan, 2014-02-01 Change is a universal phenomenon that commands the attention of the historian For Christian theology change raises special difficulties How are we to reconcile the notion of the revelation of an unchanging God who is abiding truth with the notion of the pervading mutability of all human affairs This problem which is as old as religion is intensified by the Christian belief in the fullness and finality of the revelation made through Jesus Christ Professor Pelikan begins his study of historical theology with this basic problem and traces the origins of the difficulties that inevitably follow upon the admission of the possibility of change His investigations lead him to critically examine the dogmatic solution of Vincent of Lerins the later dialectical interpretation of Abelard the approach of Thomas Aquinas and finally the nineteenth century s Adolf von Harnack to propose a working definition of Christian doctrine and of the task of the historical theologian Pelikan s work is a perceptive and penetrating study of the interaction of history and theology Theology must be historical because man is historical To neglect history or worse still to renounce it is to deny man and theology their common future Historical Theology is a worthy introduction to a task that must continually seek to weld past present and future into a living whole *A Handbook of Theology* Dr. Daniel L.
